24-core ASS optical cable G652D type

Overview

GYFTY Fiber Optic Cable is used for duct and aerial installation. The tubes (and illers) are stranded around the strength member into a compact and circular core. The cable core is. ADSS (All Dielectric Self-Supporting) cables are designed for Overhead self-supporting applications at short, medium and long span distances. Characteristic: All. UnitekFiber ensures a stable quality control system for our cable products through several programs including ISO 9001, ISO 14001 and ROHS. When utilized properly, the fiber optic pigtail allows light 24 core SM Armoured. GYFTY (non-metallic strengthening member, loose tube stranded and filled, polyethylene sheathed outdoor optical fiber cable for communication) The structure of the optical cable is to sheath a single-mode or multi-mode optical fiber into a high-modulus plastic filled with waterproof compound loose.
