24-core optical fiber ODF

Overview

ODF 24 Core unit is specially designed for the optical fiber communication equipment room. ODF 24 Core has the function of cable fixation, protecting fiber cable terminating, wiring, distribution, and protection of fiber cores and pigtails. Users can select unit or ring flange amount according to their practical needs. The right arrangement of electrical circuits in the home helps avoid power spikes, which can damage appliances. If you are. Fiber Management Tray also called ODF Distribution Box, Integrated Splicing and Distribution ODF. ODF series are standard 19 "rack mount chassis with integrated fiber optic fusion with a unit box, they are easy to install and operate, flexible, and can adjust the position by the mounting ears to meet the front, mid, and ends installation requirements,ideal for ODN deployment. ion product, it is of the sliding type, convenient for operations and maintenance. 2 mm Thickness, ﷺ nvironment temperature: -40°C ~.
