Malaysia Single-Layer Ladder Cable Tray Manufacturer

Overview

Cable Ladder | SAN ENGINEERINGWe are a leading cable ladder supplier in Malaysia, specializing in providing high-quality galvanised cable ladders for vario.

Key Takeaways

Leading manufacturers of single-layer ladder cable trays in Malaysia include Sun Energy System, SAN Engineering, Array Metal, Metal Perforators, and U-LI Group. Key Manufacturers and Their Offerings1. Sun Energy System Sdn Bhd Sun Energy specializes in high-quality metal cable ladders, trays, and trunking suitable for heavy-duty applications.

Their products are made from Electro Zinc Galvanised Steel, Pre-Galvanised Steel, Mild Steel, and Stainless Steel, offering strong corrosion resistance and compliance with NEMA and CSA standards. They provide versatile customization to meet specific industrial requirements and ensure robust cable protection for power, data, and communication lines. 2.

SAN Engineering SA

N Engineering manufactures galvanised steel cable ladders designed for industrial and commercial use. Their ladder trays feature sturdy rungs for safe cable routing and a zinc coating for enhanced corrosion resistance. They comply with local and international standards, including EN, DIN, BS, ASTM, and JIS specifications.

N Engineering emphasizes durability, long service life, and cost-effective maintenance. 3. Array Metal Sdn Bhd Array Metal offers a wide range of cable support systems, including ladder trays, trunking, and wire trays.

They are known for competitive pricing, reliable delivery, and international distribution. Their products are suitable for both domestic and global markets, providing flexible solutions for various cable management needs. 4.

Metal Perforators (M) Sdn Bhd Metal Perforators is a pioneer in cable support systems, including cable trays, ladders, ducting, and trunking. They provide fabrication and metal perforation services, supporting both local and international projects. 5.

U-LI Group U-LI Group has been manufacturing cable support systems since 1978, with five production sites in Malaysia. Their single-layer cable ladders are available in multiple depths and load capacities, supplied in straight lengths with fittings for bends, tees, crosses, and reducers. U-LI products comply with international standards and are widely used in buildings, factories, and industrial complexes.

Considerations for Selection

Material: Choose between galvanised steel, stainless steel, or mild steel depending on environmental conditions. Load Capacity: Ensure the ladder tray supports the intended cable weight. Customization: Some manufacturers offer tailored lengths, widths, and fittings.

Compliance: Verify adherence to NEMA, CSA, NEC, or other relevant standards. Support and Distribution: Consider manufacturers with reliable delivery and technical support. These manufacturers provide robust, corrosion-resistant, and flexible single-layer ladder cable trays suitable for a wide range of industrial, commercial, and residential applications in Malaysia.
