Slovenian cable tray and support manufacturer

Overview

Thanks to innovation and improved technology, we have evolved into a one-stop shop for Cable Tray manufacturers.

Key Takeaways

Leading Slovenian cable tray manufacturers include Elba d.o.o., Bevec d.o.o., and Brilltech Engineers, offering a wide range of customizable trays for industrial and infrastructure applications. Elba d.o.o. Elba is a prominent Slovenian manufacturer and distributor of products for electrical installations, including cable trays and accessories.

Their trays are made from tinned sheet metal or stainless steel, and can be hot-tinned or powder-coated to order. Elba also offers custom-made cable trays to meet specific project requirements. The company uses advanced machinery, including TRUMPF laser machines and computer-guided bending machines, ensuring high precision and quality in their products.

Bevec d.o.o. Bevec specializes in cable trays for industrial facilities, road infrastructure, air and rail transport, and telecommunications. Their trays range from 50 to 600 mm in width and 50 to 60 mm in height, and are available in galvanized, hot-dip galvanized, stainless steel, or powder-coated finishes.

Bevec provides a wide selection of bends, couplers, support struts, brackets, and hangers, facilitating installation in complex layouts while meeting environmental and safety standards.

Brilltech Engineers

Brilltech Engineers offers high-quality cable trays in Slovenia made from galvanized steel, stainless steel, and fiberglass. Their products are designed for durability, cable protection, and efficient airflow, supporting optimal cable performance. Brilltech provides perforated trays, easy installation, and maintenance solutions, along with expert guidance on system design and project support.

They cater to both small and large-scale projects, ensuring compliance with industry standards.

Summary

These Slovenian manufacturers provide a variety of cable tray types, materials, and surface treatments, along with customization options to suit industrial, commercial, and infrastructure projects. Choosing a manufacturer depends on project requirements, material preferences, and the level of technical support needed.
