8m Multimode Fiber Optic

Overview

This cable is specifically engineered for high-bandwidth applications, making it ideal for telecommunications setups. Utilizing OM4 multimode fiber, this cable supports robust data transfer rates while maintaining efficiency in connecting multiple fibers through its compact MPO/MTP. Data centers and enterprise environments that require high-speed connectivity can benefit from the Axiom 8m MPO-MPO fiber optic cable. com for performance connectivity accessories. We have a range of accessories designed to work with our products. Check them out! More Q&As may be available on the N52008M model support page. Get support for your product all in one place!
