Supply of Explosion-Proof Gas Distribution Boxes in Finland

Overview

Ex Junction Boxes and Atex Enclosures · Atex DelvalleOur explosion protection Ex enclosures and equipment are comprehensive and widely configurable. Reliab.

Key Takeaways

Explosion-proof gas distribution boxes for hazardous areas in Finland are available from leading suppliers such as Atex Delvalle, R.

STAH

L, Pepperl+Fuchs, Bartec, and Shenhai, offering ATEX and IECEx-certified solutions.

Key Suppliers and Offerings

Atex Delvalle manufactures custom-made Ex local control stations and distribution boxes in stainless steel (AISI 304L/316L) or GRP, designed for extreme temperatures and outdoor conditions. Their products include motor starters, switches, and grounding devices, all configurable to specific project requirements and certified for hazardous areas. R.

STAH

L provides both standard and bespoke terminal and junction boxes with short delivery times. Their products meet international explosion protection standards and are suitable for projects of any scale, ensuring safe energy distribution in hazardous zones. Pepperl+Fuchs offers Ex d (flameproof) and Ex tb (dust-protected) terminal and junction boxes in aluminum or stainless steel.

These enclosures are suitable for Zone 1, Zone 2, Zone 21, and Zone 22, with IP66/IP67 protection, extended temperature ranges down to -60°C, and customizable terminal and cable gland configurations. Bartec specializes in polyester distribution boxes for gas and dust hazardous areas (Zones 1, 2, 21, 22). Their enclosures provide high mechanical and chemical resistance, ensuring safe operation in industrial plants under extreme conditions.

Shenhai Explosion-

Proof Technology manufactures explosion-proof distribution boxes, junction boxes, and conduit outlet boxes for flammable gas environments. Their products are widely used in oil, gas, and chemical industries and are certified to meet international safety standards.

Considerations for Finland

When sourcing explosion-proof gas distribution boxes in Finland, consider: Certification: Ensure ATEX and IECEx compliance for legal and safety requirements. Material: Stainless steel or GRP for corrosion resistance in harsh climates. Zone Classification: Select boxes rated for the specific hazardous area (Zone 1, 2, 21, 22).

Customization: Many suppliers offer configurable enclosures, terminals, and cable entries to match project specifications. Delivery and Support: Check for local distributors or international shipping options to Finland. These suppliers provide reliable, certified solutions suitable for industrial, offshore, and chemical applications, ensuring safe and compliant operation in hazardous gas environments.
