Which company makes reliable cable trays for computer rooms

Overview

Top 10 Cable Trays Manufacturers And Suppliers | B2B HeadlinesThis list of top 10 online B2B marketplaces and manufacturers will lead you to find your perf.

Key Takeaways

Top professional cable tray manufacturers for computer rooms include Atkore, ABB, Basor Electric, and specialized suppliers like Power Cable Tray, offering high-quality, customizable solutions for data centers and IT infrastructure.

Leading Manufacturers

Atkore International is a global leader in cable tray systems, providing a wide range of solutions for construction, renovation, and IT infrastructure projects. Their portfolio includes ladder, perforated, and channel trays suitable for indoor and outdoor applications, ensuring reliable cable management and compliance with industry standards.

AB

B manufactures cable tray systems including perforated trays, cable ladders, and channel trays, with production facilities in Canada and Saudi Arabia. Their systems are designed for medium to ultra-heavy-duty installations, offering adaptability, moisture resistance, and ease of maintenance, making them ideal for computer rooms and data centers. Basor Electric specializes in cable management solutions for data centers, including Basorfil and cable ladder runways.

Their products support fiber optics, UTP, video, alarm, and power cables, providing smooth cable runs, bend radius management, and modular adaptability for evolving IT environments. Power Cable Tray is a professional manufacturer with over 20 years of experience, offering ODM and OEM services. They provide perforated trays, ladder trays, and complete cable tray systems with automated manufacturing for precision, consistent quality, and efficient installation.

Their solutions are suitable for industrial, commercial, and data center applications, with customization options for specific project requirements.

Additional Notable Manufacturers

Chalfant Manufacturing: Offers innovative self-connecting and walkable tray lines with over 70 years of experience. Sunil Engineering Corporation: Provides perforated and ladder trays with accessories for customized solutions.

ELCON CABLE TRAY

S PVT. LTD.: Manufactures wire mesh, ladder, and perforated trays with a focus on export quality. Snake Tray: Offers aluminum and steel cable trays suitable for IT and industrial applications.

Key Considerations for Computer Room Applications

Ventilation and Heat Dissipation: Perforated trays are preferred to prevent heat buildup in high-density server rooms. Modularity and Flexibility: Systems should allow easy reconfiguration as IT infrastructure evolves. Compliance and Safety: UL-rated, halogen-free, and fire-resistant materials ensure safety and regulatory compliance.

Customization: OEM/ODM services allow tailored solutions for specific room layouts, cable types, and load requirements. These manufacturers provide reliable, high-quality cable tray systems that support efficient cable management, safety, and scalability in computer rooms and data centers.
