ABB Distribution Box Models and Specifications

Overview

Distribution Boards ABB is driving progress for utilities through providing solutions for electrical distribution, and helping make a safer, more productiv.

Key Takeaways

ABB offers a wide range of distribution boxes, including Mini Center Compact, Classic Series, and sub-distribution boards, designed for residential, commercial, and industrial applications with flexible configurations and high safety standards.

Mini Center Compact Distribution Boards

The Mini Center Compact series is designed for residential, commercial, and infrastructure applications. Key features include: Flexible incomers: Switch Disconnector, MCCB, MCB, RCCB, RCD, or direct cable connection. Safety design: Shrouded busbars and terminals, front cover screws behind the door for personal protection.

Ease of installation: Pan assembly allows MCB mounting/dismounting without obstructing other devices, adjustable studs and nuts for easy fit, and removable gland plates. Compatibility: Works with ABB System pro M Compact protection devices and modular DIN rail components. Configurations: Over 200 combinations available, with factory-fitted or installer-fitted incoming kits.

Classic Series Distribution Boards

The Classic Series is built with high-quality CRCA steel sheets and undergoes a seven-tank phosphating process for anti-rust protection and durability. Specifications include: Mounting options: Flush or wall-mounted. Busbar: Tinned electrolytic copper for reliable conductivity.

Gland plates: Top and bottom removable plates with knockouts for easy cable entry. Neutral link: Close proximity design for efficient wiring.

Sub-

Distribution BoardsABB also provides sub-distribution boards suitable for industrial and commercial applications. These boards are designed to: Ensure safe and efficient power distribution. Support modular expansion and integration with ABB low-voltage products.

Meet international standards for electrical safety and reliability.

Styler Consumer Units

For domestic and commercial installations, ABB offers Styler Consumer Units: Design: Compact, easy to install, and aesthetically suited for visible areas. Reliability: High-quality components ensure long-term performance. Flexibility: Can accommodate various protection devices and configurations.

Key Specifications Across ABB Distribution Boxes

Material: High-quality steel or thermoplastic enclosures. Protection: IP-rated for dust and water resistance, shrouded busbars, and secure mounting. Capacity: Multiple MCB/RCCB slots, customizable incomers, and generous wiring space.

Installation: Removable gland plates, adjustable mounting studs, and modular design for easy expansion. Applications: Residential, commercial, industrial, and infrastructure projects.

AB

B distribution boxes are designed to provide maximum flexibility, safety, and ease of installation, making them suitable for a wide range of electrical distribution needs. For detailed ordering codes, dimensions, and technical datasheets, ABB's official catalogs and technical documents provide comprehensive guidance.
