Armored Fiber Optic Patch Cord Length

Overview

Armored Fiber Optic Patch Cables | Rugged & Flexible Solutions. Whether you need singlemode or multimode configurations, various connector types, or cust.

Key Takeaways

Armored fiber optic patch cords are available in standard lengths from 2 meters to 15 meters, with custom lengths also available to meet specific project requirements.

Standard and Custom Lengths

Armored fiber optic patch cords are typically offered in predefined lengths ranging from 2 meters (approximately 6. 5 feet) up to 15 meters (approximately 49 feet), depending on the manufacturer and fiber type. For example, ShowMeCables provides armored fiber cords in lengths from 2M to 15M for singlemode and multimode fibers, including OM1, OM2, OM3, OM4, OM5, and G652D types.

Many suppliers, such as Fibertronics, also offer custom lengths to accommodate unique installation requirements, ensuring flexibility in data centers, industrial, or outdoor environments.

Factors Affecting Length Selection

When selecting the length of an armored fiber optic patch cord, consider the following: Application environment: Indoor, outdoor, or harsh environments may require specific lengths to avoid excess slack or tension. Connector type and fiber mode: Singlemode or multimode fibers with different connectors (LC, SC, ST, FC, etc.) may influence the optimal cord length. Installation constraints: Space limitations, bend radius, and routing paths should be considered to prevent signal loss or physical damage.

Customization needs: For large-scale projects or repeat orders, specifying exact lengths ensures consistency and reduces installation errors.

Summary

Armored fiber optic patch cords are flexible, rodent- and crush-resistant, and can be ordered in standard lengths from 2M to 15M, with custom lengths available for specialized applications. Choosing the correct length involves evaluating the installation environment, fiber type, connector type, and routing requirements to ensure reliable performance and ease of installation.
