Azerbaijan Telecommunications Outdoor Cabinet Price List

Overview

Com-Box series wall mounted cabinet. With its design, advanced structural superiority, ease of use and most importantly, unrivaled price advantage, it provides superiority to its peers.

Key Takeaways

Outdoor telecom cabinets in Azerbaijan range from approximately $100 to $320 per unit, depending on size, material, and cooling features.

Overview of Outdoor Telecom Cabinets in Azerbaijan

Outdoor telecom cabinets are designed to protect telecommunication equipment from rain, dust, extreme temperatures, and vandalism. They are typically made from galvanized iron, aluminum, stainless steel, or powder-coated steel, providing durability and long service life. Cabinets are available in various sizes, commonly measured in rack units (U), such as 22U, 24U, 27U, 32U, 36U, and 42U.

Key Features

Weatherproofing: IP55 is standard for moderate climates, while IP65/IP66 is recommended for coastal or extreme environments. Cooling Options: Cabinets may include air conditioners or fans to maintain stable internal temperatures, especially for electronics and battery storage. Security: Lockable doors and optional alarm systems prevent unauthorized access.

Material Choices: Powder-coated steel offers a balance of durability and cost, while aluminum alloys provide superior corrosion resistance at a 15–20% higher cost.

Price Ranges

Budget Models: Basic IP65 cabinets without active cooling start around $100 per unit (MOQ applies) and are suitable for small-scale or less critical installations.

Mid-

Range Models: Cabinets with integrated air conditioning, IP55/IP65 rating, and moderate size (24U–36U) typically cost $168–$320 per unit. Premium Models: Large cabinets (36U–42U) with advanced cooling, monitoring systems, and high-grade materials may exceed $320 per unit, depending on customization and manufacturer. Local Suppliers in AzerbaijanERC Azerbaijan – Offers Com-Box series wall-mounted cabinets, including 9U compact models suitable for network and server equipment, emphasizing ease of maintenance and cost efficiency.

AZ

E Telecom – Provides a wide range of weatherproof outdoor enclosures with IP55 rating, AC110V/220V options, and integrated cooling systems for 18U–42U cabinets.

Recommendations

Select I

P rating based on local climate and exposure. IP55 is sufficient for most urban areas, while IP65/IP66 is better for harsh or coastal conditions. Consider cooling needs: Active cooling is essential for electronics-heavy cabinets, while passive ventilation may suffice for non-critical equipment.

Material choice: Powder-coated steel is cost-effective; aluminum is preferred for corrosion resistance. Size planning: Choose a cabinet that fits current equipment and allows room for future expansion. By evaluating these factors, businesses in Azerbaijan can select outdoor telecom cabinets that balance cost, durability, and operational requirements.
