

Cable tray socket price

Overview

Cable Tray Prices Discover cable trays with CE certification, available in stainless steel, aluminum, and galvanized materials. Ideal for industrial cable.

Key Takeaways

Cable trays for sockets typically range from \$15 to \$34 for consumer under-desk models, while industrial or bulk trays can cost between \$0. 80 and over \$76 per unit depending on material and size. Consumer (B2C) PricingFor home or office use, under-desk cable trays designed to hold multiple sockets and power bricks are priced between \$15 and \$34 per unit.

These trays are usually made of powder-coated steel or plastic, feature easy installation methods like screw-on or clamp systems, and are suitable for managing small to medium cable bundles. Wholesale prices for these consumer trays can be as low as \$0. 92, offering potential for resale with moderate markup.

Industrial and Commercial (B2B) PricingFor larger-scale applications such as data centers, construction projects, or manufacturing facilities, cable trays are available in stainless steel, galvanized steel, or aluminum, with prices ranging from \$0. 80 to over \$76 per unit depending on size, load capacity, and material. Bulk purchasing through platforms like Alibaba or direct from manufacturers can significantly reduce per-unit costs.

These trays comply with standards such as DIN EN 61537 and are designed for high load-bearing capacity, corrosion resistance, and long-term durability.

Factors Affecting Price

Material: Stainless steel and heavy-duty metal trays are more expensive than plastic or powder-coated steel. **Size and Capacity:** Larger trays or those designed to hold multiple sockets and thick cables cost more. **Design:** Perforated, ladder-style, or modular trays with accessories for routing and securing cables can increase cost.

Installation Type: Under-desk trays for personal use are cheaper than industrial ceiling or wall-mounted systems.

Summary

For typical socket management under desks, expect to pay \$15–\$34 per tray. For industrial or bulk applications, prices vary widely from \$0.80 to over \$76, depending on material, size, and compliance with safety standards.

Choosing the right tray depends on your installation environment, load requirements, and budget.
