Canadian Indoor Electrical Distribution Box Manufacturer

Overview

Proudly designed and manufactured in Saint-Jean-sur-Richelieu, Quebec, Iberville products are made using locally sourced materials, ensuring consistent quality and supporting the Canadian economy.

Key Takeaways

Code Electric and Canadian Electrical Raceways (CER) are leading Canadian manufacturers of indoor electrical distribution boxes and enclosures. Key Manufacturers1. Code Electric Products Ltd.

Based in Western Canada, Code Electric has been supplying the Canadian electrical industry since 1979. They manufacture CSA-rated electrical enclosures, kiosks, and custom fabricated metal products, including indoor distribution boxes suitable for residential, commercial, and industrial applications. Code Electric also offers custom solutions with CAD design support and works with contractors and engineering firms to meet municipal requirements across Canada, including British Columbia, Ontario, and Quebec.

They also provide modular power distribution kiosks for EV chargers. 2. Canadian Electrical Raceways (CER) CER is a Canadian company specializing in high-quality cable management systems, including cable trays, cable ducts, floor boxes, and wire mesh trays.

Their products are CSA-approved and have been serving the Canadian market for over 30 years.

CE

R emphasizes quality, innovation, and customer satisfaction, making them a reliable choice for indoor electrical distribution solutions.

Distributors and Suppliers

While not manufacturers, several Canadian distributors provide access to a wide range of indoor electrical boxes: Westburne: Offers various electrical boxes and enclosures for residential and commercial use. Nedco: Provides a selection of boxes and enclosures, along with technical support and training. Evolt Electrical Supply: Stocks metal and plastic electrical boxes, switch boxes, floor boxes, and accessories suitable for indoor installations, with fast shipping across Canada.

Considerations

When selecting a manufacturer or supplier, consider: CSA certification for compliance with Canadian electrical codes. Customization options for specific project requirements. Regional availability and shipping logistics, especially for large-scale installations.

Support for design and engineering, particularly for complex commercial or industrial projects. These manufacturers and distributors provide a comprehensive range of indoor electrical distribution boxes and related enclosures, ensuring compliance, quality, and flexibility for Canadian projects.
