China-Europe High-Quality Cable Tray Company

Overview

Home With over 20 years of expertise, we specialize in the R&D, production, and global supply of high-quality cable tray systems, including perforated tray.

Key Takeaways

Leading Chinese cable tray manufacturers like Tianhong, BESCA, APEXTRAY, and ECTRAY offer high-quality, customizable cable management solutions suitable for European and global projects. Key Manufacturers1. Shandong Tianhong Electric Power Technology Co., Ltd.

Founded in 2006, Tianhong specializes in perforated trays, cable ladders, trunking, strut channels, and fittings. Their factory uses automated production lines to ensure consistent quality and fast delivery, and they provide OEM & ODM services for customized solutions. Tianhong products are suitable for power plants, data centers, commercial buildings, and infrastructure projects, offering heavy-duty, powder-coated, and enclosed cable tray options for durability and corrosion resistance.

2. Shanghai Besca Industrial Co., Ltd.

BESC

A focuses on professional cable support systems designed for easy installation across commercial, industrial, and mining sites. They offer a range of profiles, depths, and load capacities, making their systems adaptable to various project requirements.

BESC

A emphasizes flexible installation and project-specific solutions, supporting both domestic and international clients. 3.

APEXTRAY APEXTRA

Y manufactures solid bottom, ladder, and perforated cable trays and provides customization services for specific project needs. They use galvanized steel, stainless steel, and aluminum to ensure durability and compliance with industry standards.

APEXTRA

Y also offers installation support, maintenance guidance, and CAD design services, with typical lead times of 10–30 days depending on order size. 4.

ECTRAY Solutions ECTRA

Y produces high-strength cable trays and ladders with thicknesses from 2mm to 6mm, available in pre-galvanized, hot-dipped galvanized, and painted coatings. Their systems are designed to reduce design errors and project costs, and they provide professional guidance for planning, monitoring, and management of cable tray installations.

Additional Considerations

Product Types: Ladder, perforated, solid bottom, wire mesh, and fiber cable trays. Materials: Galvanized steel, stainless steel, aluminum, and powder-coated finishes. Customization: Most manufacturers offer project-specific designs, OEM/ODM services, and CAD support.

Applications: Industrial plants, data centers, commercial buildings, infrastructure projects, and smart manufacturing facilities. Certifications & Standards: Many suppliers comply with international quality standards to ensure suitability for European markets. These manufacturers provide reliable, durable, and customizable cable tray solutions for European projects, combining advanced production technology with international shipping capabilities.
