Egyptian electrical cable tray supplier

Overview

We specialize in cable trays in Egypt, cable ladders in Egypt, galvanized cable trays, and galvanized cable ladders.

Key Takeaways

Egypt has several reputable cable tray manufacturers and suppliers offering a wide range of trays, ladders, trunks, and accessories for industrial and commercial projects. Leading Suppliers1. El Masrya El Almanya Company for Metal Forming Specializes in manufacturing all types of cable trays, including perforated trays, solid ducts, and cable ladders, along with accessories and metal shelving units.

They focus on high-quality production using advanced machinery and trained personnel, serving industrial and commercial projects across Egypt (Qalyub, Kaliobeya). 2.

Al-

Yathreb Factory Offers metal forming and cable management systems, including trays and ladders. They also manufacture solar energy structures, storage systems, and mechanical supports, using laser cutting technology for precision. Ideal for large-scale national and industrial projects.

3. Rovana Trade Factory for General Trading and Supplies Produces cable trays, trunks, basket trays, and ladders using hot-dip and cold-galvanized materials with electrostatic coatings. They also provide custom metal shaping services according to engineering specifications, ensuring high-quality standards (El Qanatir el Khayriyah, Kaliobeya).

4. Metal Tech (MT Tray) An Egyptian company specializing in cable tray fabrication and metal forming. They offer perforated trays, cable ladders, cable trunks, tray supports, and accessories.

M

T Tray emphasizes high load capacity, durability, and ease of installation, suitable for electrical projects across Egypt. 5.

Metal

Egypt Provides a wide range of cable trays in galvanized steel, stainless steel, aluminum, and PVC-coated finishes. They also supply complete accessories such as covers, connectors, splice plates, bends, risers, and junctions, ensuring full system compatibility for industrial, commercial, and data center applications. 6.

EI

G Offers cable trays in various materials including cold-rolled steel, electro-galvanized steel, austenitic stainless steels (SS 304, SS 316), and aluminum. Their products are suitable for general engineering applications and corrosive environments, with a focus on durability and long service life.

Key Considerations

Material Options: Galvanized steel, stainless steel, aluminum, and PVC-coated trays. Tray Types: Perforated trays, ladder trays, cable trunks, and basket trays. Accessories: Covers, connectors, bends, risers, and junctions for complete cable management systems.

Customization: Many suppliers offer fabrication according to engineering drawings and project specifications. Applications: Industrial plants, commercial buildings, data centers, and infrastructure projects. These suppliers provide reliable solutions for organizing, supporting, and protecting electrical cables, ensuring safety, efficiency, and compliance with engineering standards in Egypt.
