Fiber Optic Amplifier Panel Price

Overview

Buy Fiber Amplifiers | Best wholesale prices from suppliers. Get price quotes for Fiber Amplifiers. Search, find, compare and shop for Fiber Amplifiers.

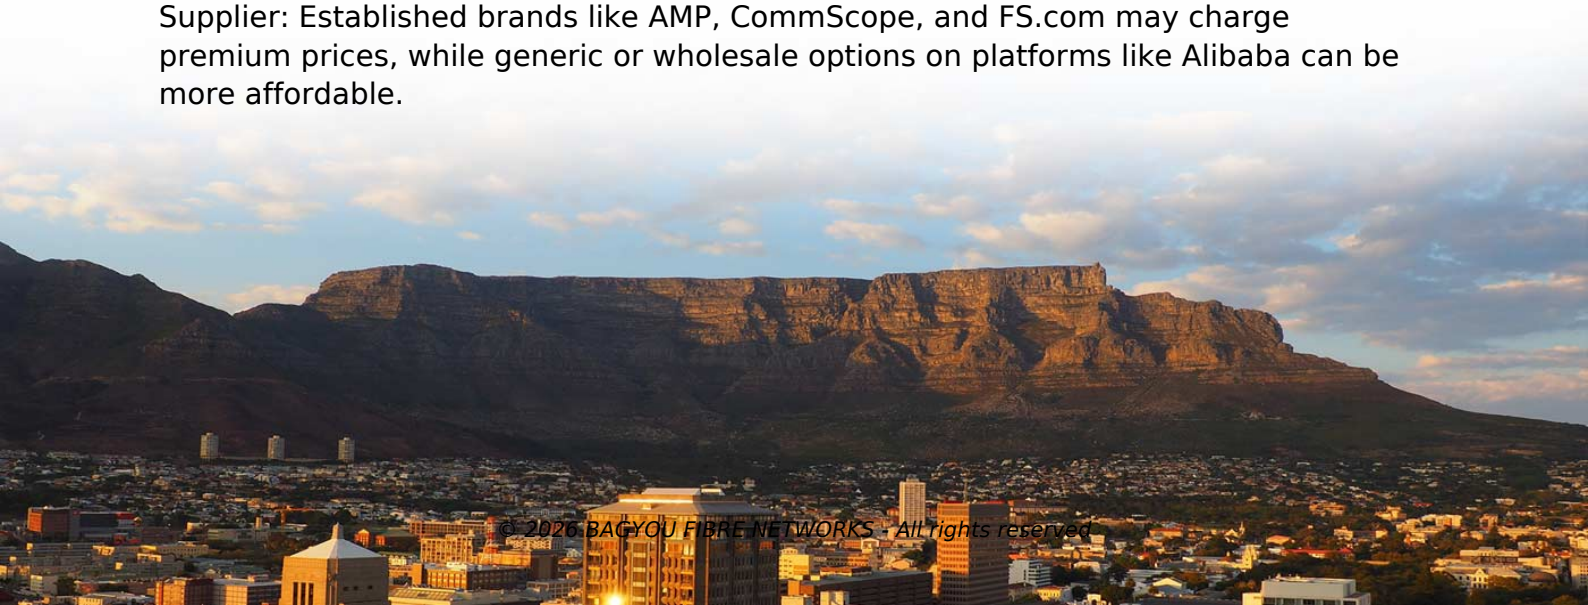

Key Takeaways

Fiber optic amplifier panels typically range from $200 to $2,500 or more, depending on specifications, port count, and manufacturer.

Price Range and Factors

The cost of a fiber optic amplifier panel varies widely based on several factors: Port Count and Size: Panels with 12–24 ports are generally on the lower end ($200–$500), while high-density panels with 48–96 ports or modular designs can cost $1,000–$2,500 or more. Type of Fiber: Singlemode panels are usually slightly more expensive than multimode due to longer-distance capabilities and lower signal loss. Amplifier Integration: Panels that include built-in optical amplifiers to boost signal strength over long distances are more costly than standard patch panels.

Material and Build Quality: Panels made from heavy-gauge steel or with precision zirconia sleeve connectors for low insertion loss are priced higher. Brand and Supplier: Established brands like AMP, CommScope, and FS.com may charge premium prices, while generic or wholesale options on platforms like Alibaba can be more affordable.

Additional Considerations

Modular vs Preloaded Panels: Modular panels allow flexibility for future expansion but may have higher upfront costs. Preloaded panels with adapters or cassettes are convenient but less customizable. Accessories: Splice trays, dust caps, and cable management trays can add $50–$200 to the total cost.

Installation and Shipping: Professional installation and shipping for high-density or amplifier-integrated panels can significantly increase the overall expense.

Summary

For a typical fiber optic amplifier panel, expect to pay: Entry-level 12–24 port panels: $200–$500Mid-range 24–48 port panels with amplifier support: $500–$1,200High-density or fully modular amplifier panels: $1,200–$2,500+ Prices fluctuate based on port count, fiber type, amplifier integration, and brand, so contacting suppliers like Vyrian, CommScope, or FS.com for a custom quote is recommended for precise budgeting.
