Fiber Optic Cable Pre-stretched Fittings Manufacturer

Overview

Our pre-terminated assemblies for indoor and outdoor use, available with a broad rage of fiber optic connectors and cable types to meet your network needs.

Key Takeaways

Kexint and Jera Line are leading manufacturers of pre-stretched fiber optic cable fittings and pre-terminated assemblies, offering reliable, factory-made solutions for FTTH and power line applications.

Kexint Pre-

Stretched Wire Helical Line Fittings

Kexint specializes in preformed tension clamps for bare conductors and overhead insulated conductors used in power transmission and distribution lines. These clamps feature a tubular structure formed by double legs that naturally wind around the wire, providing a strong and reliable grip. Materials include aluminum-clad steel and galvanized steel, ensuring durability and corrosion resistance.

The design eliminates the need for bolts or hydraulic devices, offering a neat appearance and superior economic performance compared to traditional tension clamps. Kexint also produces FTTH fiber optic serial products, including drop cables, indoor cables, and patch cords, serving both European and American markets (Web result).

Jera Line Factory-

Made Fiber Optic Products

Jera Line manufactures pre-terminated FTTH drop cable patch cords with SC/APC or SC/UPC connectors, enabling faster and cost-efficient installations. Their factory capabilities include plastic injection molding, metal stamping, CNC machining, and spring production, allowing for high-quality clamps, termination boxes, and anchoring brackets. All products comply with ISO 9001: 2015 standards, ensuring consistent quality and reliability.

Jera Line supports customization for indoor and outdoor applications, making it suitable for diverse network deployments (Web result).

Advantages of Factory-

Made Pre-

Stretched FittingsTime and labor savings: Pre-stretched fittings and pre-terminated cables reduce on-site installation complexity. Consistent performance: Factory testing ensures low insertion loss and high return loss for fiber optic connections. Durability: Materials like galvanized steel and aluminum-clad steel withstand harsh environments.

Customization: Cable lengths, connector types, and assembly configurations can be tailored to project requirements (Web results). ApplicationsFTTH/FTTx deployments: Drop cables and patch cords for residential and enterprise networks. Data centers and telecom networks: High-density fiber connections with MPO/MTP, LC, SC, or ST connectors.

Power transmission lines: Pre-stretched tension clamps for overhead conductors. Outdoor and industrial environments: Ruggedized fittings for harsh conditions (Web results). For sourcing pre-stretched fiber optic cable fittings, Kexint and Jera Line provide comprehensive factory-made solutions with global shipping, certifications, and customizable options suitable for both telecom and power line applications.

Optical Fiber Cable Assemblies – Fronova

As a leading manufacturer of pre-terminated fiber optic cables, We produces multi-fiber cable assemblies using top-grade ceramic ferrules and fiber connector

Fiber Optic Cable Assemblies

Our pre-terminated assemblies for indoor and outdoor use, available with a broad rage of fiber optic connectors and cable types to meet your network needs.

Custom Cable Assemblies Manufacturer USA | Cables Unlimited

We provide custom cable design services, rapid in-house prototyping, and low, medium or high volume custom cable and custom wire harness manufacturing capabilities.

Preformed Optical Cable Fittings: Reliable & Customizable

Discover preformed optical cable fittings with corrosion resistance, UV protection, and customizable options. Find verified suppliers, competitive pricing, and fast delivery.

Pre-Terminated Fiber Optic Cable Assemblies

For more than 35 years Falcon Technologies has been providing customers with high quality pre-terminated fiber cable assemblies and sub assemblies. We offer armored fiber optic cables & non

Pre-terminated / connectorized fiber optic cable assem | AFL Global

Multi-fiber cable assemblies provide safe and cost-effective installation for many applications. These assemblies eliminate labor-intensive field terminations and guarantee reliable performance.

Optical Fibre | Prysmian

With centres of excellence the Netherlands and France, and five production sites around the world, we are a world-leading manufacturer of optical
