Gigabit Fiber Optic Cable Price List

Overview

Main cost drivers include cable grade (indoor vs outdoor, armoured), distance, and labor for trenching, splicing, and termination.

Key Takeaways

Fiber optic cable prices range from $0. 05 to $1. 50 per meter for bulk purchases, with gigabit internet bundles starting around $64.

99/month.

Fiber Optic Cable Pricing

Material Costs (per foot/meter): Single-mode (OS1/OS2, 9/125 µm): $0. 10–$0. 50 per foot, ideal for long-distance connections.

Multimode (OM1/OM2, 50–62. 5 µm): $0. 10–$0.

60 per foot, suitable for shorter distances and LANs. High-speed multimode (OM3/OM4, 50 µm): $0. 50–$1.

10 per foot, supports 10–40 Gbps over 300–550 meters. Armored or outdoor-rated cables: $0. 50–$5.

00 per foot, for direct burial or harsh environments. Bulk Discounts: Buying in reels or large quantities (1,000+ feet) can reduce per-foot costs by 20–40%. Pre-terminated Assemblies: Factory-terminated patch cables and trunk cables cost more due to labor and connector types, but save installation time.

Installation Costs

Indoor runs: $1–$6 per foot for labor and termination. Complex installations: $7–$12 per foot, including routing through walls or ceilings. Per-drop pricing: $250–$1,000 per network drop depending on complexity.

Outdoor trenching: $5,000–$20,000 per mile for basic projects, up to $60,000–$80,000 per mile in urban areas.

Gigabit Internet Bundles

Some providers offer bundled fiber optic internet services with gigabit speeds: TDS Fiber: 1 Gig internet for $64. 99–$74. 99/month, including Wi-Fi router, no contract, and no data caps.

Altafiber Fioptics: 1 Gig symmetrical internet at $50/month for 2 years with eBill, optional TV and phone bundles available. Xfinity: 300 Mbps fiber service starting at $40/month with equipment included, higher speeds available depending on location.

Key Considerations

Fiber Type: Single-mode is better for long distances; multimode is cost-effective for short-range LANs. Strand Count: Higher strand counts increase cable cost proportionally; 12-strand cables are cheaper than 24-strand or 288-strand backbones. Installation Environment: Indoor plenum-rated cables are cheaper than outdoor or armored cables.

Bulk Purchasing: Direct purchase from manufacturers or authorized distributors often yields the best pricing. For large-scale deployments, it is recommended to request quotes from multiple suppliers to compare costs for cable type, installation, and bundled services.
