Huawei GPON Multi-Terminal Access Device

Overview

The Huawei MA5683T is an aggregation-grade Optical Line Terminal (OLT) supporting up to 6 service slots and 12,000 GPON subscribers. It offers uplink flexibility with GICF (GE optical) or X2CS (10G) boards and features dual redundant DC power slots. Passive all-optical network access solutions for enterprises, Internet Service Providers (ISPs), and Multiple System Operators (MSOs). Why Huawei Optical Access?

Huawei is ranked number one in the optical access field. All services are executed in a unified manner, with the potential for unlimited. The MA5800 multi-service access device is a 4K/8K/VR-ready OLT in the gigabit ultra-broadband era. It supports the PON/10G PON/50G PON/GE/10GE shared platform. This topic describes the product positioning and network applications of the SmartAX MA5600T/MA5603T/MA5608T.
