Hub switch industry

Overview

The industrial hubs and switches market is projected to grow at a robust CAGR of approximately 8-10% over the next five years, reflecting sustained demand driven by Industry 4. 0 initiatives, automation trends, and digital transformation efforts across manufacturing, energy, and. Industrial switching hubs are being integrated with smart technologies, enabling real-time data analytics and improved connectivity in manufacturing environments. Our comprehensive portfolio includes unmanaged switches, managed switches, PoE switches. The global industrial switching hub and access point market is valued at about USD 1. 2 Billion in 2026 and is projected to reach USD 2. It grows at a compound annual growth rate (CAGR) of around 7.
