Huijue Large Span Cable Tray Costs

Overview

Reliable Solutions for Efficient huijue cable tray unit price. Discover high-quality huijue cable tray unit price designed for efficient cable management.

Key Takeaways

The unit price of Huijue large span cable trays varies depending on material, size, surface treatment, and load capacity, typically ranging from $50 to $250 per meter.

Pricing Overview

Huijue large span cable trays are available in various materials including stainless steel (SS304), galvanized steel, aluminum, and hot-dip galvanized steel, which significantly affects the price. The surface treatment—such as hot-dip galvanizing, electrostatic spraying, or special anti-corrosion coatings—also influences cost.

Factors Affecting Price

Dimensions: Widths commonly range from 100mm to 800mm, and lengths from 2m to 6m. Larger widths and longer spans increase material usage and cost. Load Capacity: Maximum working loads vary from 100kg to 250kg depending on tray thickness and design, with higher load-bearing trays costing more.

Customization: Huijue trays can be customized for specific projects, including special shapes, lengths, and thicknesses, which may increase unit price. Accessories: Covers, joints, bolts, and nuts are often included or sold separately, affecting the total cost. Certifications: ISO9001, CCC, and CE certifications ensure quality and compliance, which can slightly raise the price.

Estimated Price Range

Small to medium trays (100–300mm width, standard load): approximately $50–$120 per meter. Large trays (400–800mm width, high load capacity): approximately $150–$250 per meter. Prices may vary based on order quantity, shipping, and regional factors.

Applications

Huijue large span cable trays are widely used in industrial, construction, communication, power, and infrastructure projects, including tunnels, factories, substations, and solar or wind energy installations. Their high load-bearing capacity and customizable design make them suitable for complex wiring layouts. For precise pricing, it is recommended to contact suppliers directly with your project specifications, including material, width, length, load requirements, and surface treatment, to obtain a tailored quotation.
