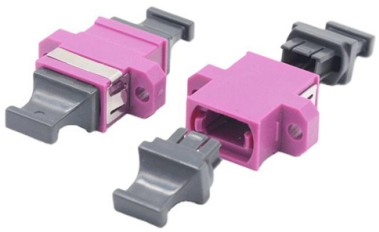
Installation Price of Wall-Mounted Network Cabinets



Overview

Wall-Mount Cabinets for Network and Server Equipment Wall mount network cabinets from Chatsworth Products provide secure enclosures for servers, switches.

Key Takeaways

Installing a wall-mounted network cabinet typically costs between $100 and $500 for the cabinet itself, with installation labor adding $100–$300 depending on complexity. Cabinet CostsWall-mounted network cabinets are compact units designed for routers, switches, patch panels, and small servers. Basic 6U models start around $100, while more feature-rich options with lockable glass doors or built-in cooling fans can cost $260–$500.

Popular models in 2026 include the Tecmojo 6U and NavePoint 12U cabinets, which offer sturdy metal construction, ventilation, and security features. The size (6U–12U), material quality, and additional features like fans or lockable doors influence the price.

Installation Costs

The cost of installing a wall-mounted cabinet depends on labor, wall type, and mounting complexity. Standard installation involves securing the cabinet to studs or reinforced walls, ensuring it can support the weight of the equipment (typically 150–286 pounds),. For a small office or home setup, installation labor usually ranges from $100 to $300, depending on the installer's rates and any additional wall reinforcement required.

If the wall is drywall only, extra anchoring or support may be needed, which can increase labor costs.

Additional Considerations

Cabling and connectivity: Running Ethernet or power cables may add $2–$5. 50 per linear foot for basic runs, plus $150–$350 per access point if adding network devices. Equipment weight: Ensure the wall can support the cabinet fully loaded; heavier setups may require professional reinforcement.

Time: Most small wall-mounted cabinets can be installed in 20–30 minutes with proper instructions and hardware. Location: Prices may vary slightly depending on region and labor rates.

Total Estimated Cost

For a typical small office or home IT setup: Cabinet: $100–$500Installation labor: $100–$300Optional cabling and accessories: $50–$200Estimated total: $250–$1,000, depending on cabinet features, wall preparation, and additional networking requirements. This range provides a realistic budget for planning a wall-mounted network cabinet installation.
