Intelligent Industrial Ethernet PoE Switches

Overview

We provide a wide range of PoE/PoE+/PoE++ switches with up to 90 W output per port to deliver high-speed data transmission while powering high-power devices over long distances. 3af, this first standard provides up to 15. With this standardization, PoE quickly gained popularity, as it enabled a reduction in infrastructure costs, simpler. In this category you will find switches specifically designed for Power over Ethernet (PoE) deployment. Discover a wide selection of high-quality PoE switches from manufacturers such as ICPDAS. Compact Switch Modules (CSM) and SCALANCE X-000 are the space-saving switches for simple machine networking, enabling easy integration into existing plants. SCALANCE X-100 unmanaged switches and media converters are ideal for the cost-effective setup of small industrial networks, even in harsh. Moxa provides a wide range of industrial Ethernet switches that feature industrial-grade reliability, network redundancy, strengthened security, easy management, and competitive price-to-performance ratios. Our comprehensive portfolio includes unmanaged switches, managed switches, PoE switches. Advantech's industrial Ethernet solutions provide an abundance of product options including managed and unmanaged switches, Gigabit Ethernet switches, PoE switches (IEEE 802.
