Is a 3-meter fiber optic patch cord expensive

Overview

How Much Do Fiber Patch Cords Cost?

OEM & Bulk Pricing BreakdownFiber patch cord pricing and specification choices can vary by region due to industry stand.

Key Takeaways

A 3-meter fiber optic patch cord typically costs between $5 and $20, depending on fiber type, connector type, and quality. Price Range by Fiber Type and ConnectorMultimode OM3/OM4 LC-LC patch cords: Prices generally range from $5 to $15 for a 3-meter duplex cable, suitable for high-speed short-distance connections in data centers or LANs (Amazon, CablesForLess). Singlemode 9/125 LC-LC or LC-SC patch cords: Prices are slightly higher, typically $10 to $20 for a 3-meter cable, reflecting their suitability for long-distance, high-bandwidth applications (CableWholesale, FiberCablesDirect, Graybar).

Factors Affecting Price

Fiber Type: Singlemode cables (OS2, 9/125) are more expensive than multimode (OM3/OM4) due to higher precision and lower attenuation over long distances. Connector Type: LC connectors are common and slightly cheaper than SC or hybrid LC-SC connectors. Duplex cables (two fibers) cost more than simplex (single fiber).

Quality and Brand: Premium brands like Corning or Allen Tel may include lifetime warranties and tested performance, which can increase cost. Lower-cost generic cables are available but may have less rigorous testing. Jacket Material: LSZH (Low Smoke Zero Halogen) or OFNR (Riser Rated) jackets for safety in commercial buildings can slightly increase the price.

Summary

For a 3-meter fiber optic patch cord, expect to pay:$5–$15 for multimode LC-LC cables$10–$20 for singlemode LC-LC or LC-SC cablesPrices may vary slightly depending on retailer, shipping, and bulk purchase discounts. Choosing the right type depends on your network requirements, distance, and desired performance.
