

Jamaican Trough-Type Cable Tray Manufacturing

Overview

Thanks to innovation and improved technology, we have evolved into a one-stop shop for Cable Tray manufacturers.

Key Takeaways

Trough-type cable trays in Jamaica are available from manufacturers like Jeetmull Jaichandlall and Brilltech Engineers, offering durable, customizable trays in galvanized steel, stainless steel, and fiberglass.

Specifications of Trough-

Type Cable Trays Trough-type cable trays are designed to support and protect electrical cables while allowing ventilation and easy maintenance. Key specifications include: Material Options: Galvanized steel, stainless steel, aluminum, and fiberglass for corrosion resistance and durability. Design: Solid-bottom or ventilated troughs to allow airflow and prevent overheating of cables.

Load Capacity: Varies by material and size; typically engineered to handle heavy industrial and commercial cable loads. Dimensions: Available in multiple widths, depths, and lengths; customizable to project requirements. Finish: Hot-dip galvanized or powder-coated finishes for enhanced corrosion protection, especially in humid or coastal environments.

Compliance: Adheres to international standards for electrical safety and structural integrity.

Manufacturers and Suppliers in Jamaica

Jeetmull Jaichandlall (P) Ltd. Offers a wide range of cable trays in various sizes, shapes, and colors. Focuses on high-quality finishing and adherence to industry standards.

Provides on-site manufacturing with modern equipment and customization options.
Brilltech Engineers Pvt. Ltd.

Supplies galvanized, stainless steel, and fiberglass cable trays. Offers ladder and trough-type trays with perforated designs for airflow. Provides installation support, system design assistance, and compliance with safety standards.

Trademo Jamaica

A platform to discover multiple cable tray manufacturers and suppliers in Jamaica. Provides shipment data, trade volumes, and supplier contacts for sourcing.

Applications

Industrial and commercial electrical installations. Data centers and telecommunication cable management. Power distribution systems requiring robust and ventilated cable support.

Environments where corrosion resistance and load-bearing capacity are critical.

Considerations for Selection

Material choice based on environmental conditions (e.g., coastal areas may require stainless steel or fiberglass). Load requirements to ensure structural integrity. Customization for specific project dimensions and cable routing.

Compliance with local and international electrical standards. For procurement, contacting Jeetmull Jaichandlall or Brilltech Engineers directly is recommended to discuss project-specific requirements, obtain quotes, and explore customization options.
