Middle East Cable Tray Customization Price Inquiry

Overview

Cable Tray Suppliers for Construction & Infrastructure | West Port. Renowned Supplier of cable trays, trunking, GI slotted channels, and wire mesh trays.

Key Takeaways

Cable tray prices in the Middle East vary by type, material, and supplier, with options available from leading UAE manufacturers like West Port Cable Tray and Bonn Metal Construction Industries.

Market Overview

The Middle East cable tray market is driven by industrial, commercial, and infrastructure projects, including energy, oil & gas, and smart city developments. Key product types include ladder trays (high strength, ventilation), trough trays (solid or ventilated bottoms for protection), and wire mesh trays (flexible, easy installation) with materials such as galvanized steel, aluminum, and stainless steel. Pricing is influenced by material choice, load capacity, environmental conditions, and project scale.

Leading Suppliers

West Port Cable Tray (UAE): Offers cable trays, ladders, wire mesh trays, and Unistrut channels for light to heavy-duty applications. They provide tailored solutions and support for commercial and industrial projects.

Bonn Metal Construction Industries LL

C (BMCI, UAE): Produces 12,000 tons per year, supplying cable trays, ladders, trunking, and strut channels across the MENA region. They specialize in high-quality, precision-engineered systems for industrial and commercial infrastructure. Gooxoom (Dubai): Supplies galvanized iron (GI) cable trays, suitable for commercial, industrial, and residential projects, with corrosion-resistant zinc coatings for durability.

Factors Affecting Price

Material: Galvanized steel is cost-effective; aluminum is lightweight and corrosion-resistant; stainless steel is premium for high-corrosion or cleanroom environments. Tray Type: Ladder trays are generally more expensive due to higher strength and ventilation; wire mesh trays are flexible and easier to install, often lower in cost. Project Volume: Bulk orders for large-scale industrial or infrastructure projects may reduce unit cost.

Customization: Tailored designs, finishes, and modular systems can increase pricing. How to Obtain a QuoteIdentify the type and material of cable tray required for your project. Contact suppliers directly via their websites: West Port Cable Tray: westport-me.comBMCI: bonn-group.comGooxoom: gooxoom.comProvide project specifications, including length, load capacity, environment, and quantity.

Request a formal quotation including delivery, installation support, and warranty options. By engaging directly with these suppliers, you can obtain accurate, up-to-date pricing tailored to your project requirements in the Middle East.
