Nepal cable tray model

Overview

We manufacture many types of cable trays and their accessories in Nepal. We use high quality raw materials and most advanced technologies guaranteeing total fulfillment at customers end.

Key Takeaways

Cable trays in Nepal are available in various types, materials, and sizes, including ladder, perforated, raceway, and FRP trays, with customizable dimensions and finishes to suit industrial, commercial, and residential applications.

Types of Cable Trays in Nepal

Ladder Cable Trays: Designed for heavy-duty applications, these trays provide strong support for large bundles of cables. They are typically made from mild steel, stainless steel, or galvanized steel and allow for excellent ventilation and heat dissipation. Perforated Cable Trays: These trays feature holes or slots for cable support and are available in welded or bolt-and-nut types.

They are suitable for medium loads and allow for easy cable attachment and drainage. Raceway Cable Trays: Ideal for IT and networking cables, raceways provide organized pathways for power and data cables, often used in commercial buildings.

FR

P (Fiberglass Reinforced Plastic) Cable Trays: Lightweight, corrosion-resistant, and non-conductive, FRP trays are suitable for harsh environments and chemical industries.
