Panama LPO optical module QSFP28

Overview

LINK-PP LQ-LW100-ER4C QSFP28 Optical Transceiver Module is designed for use in 100GBASE Ethernet throughput up to 80km over single-mode fiber (SMF) using a wavelength of 1310nm via duplex LC connectors. Linear Pluggable Optics (LPO) are a new optical transceiver technology. The idea is simple: instead of a DSP (digital signal processor) inside the module – replacing it with transimpedance amplifier (TIA) and a driver chip with high linearity and EQ capability – LPO shifts signal processing into. FS offers a growing portfolio of 100G QSFP28 modules. The 100G QSFP28 module solution provides high-performance 100GbE connectivity for data centres, enterprise core & distribution layers, computing networks and service provider applications. Click to get your 100GBE transceiver modules from nearby. Amphenol's 100G QSFP28 optical modules include SR4, AOC, AOC break out, CWDM4, LR4, ER4 Lite, ER4 and ZR4 series, which adopt LC or MPO optical ports and are compatible with IEEE802. This article will explore the QSFP28. Shop 100g Gigabit Qsfp28 Ethernet Transceiver 100gbase Lr4 Optical Fiber Module at best prices at Desertcart Panama.
