Pdu Smart Power Socket

Overview

It features a patented 5-in-1 socket system compatible with IEC C13, C15, C15A, C19, and C21 plugs, alongside an inclined infeed for easier installation in high-density racks. NETIO PowerPDU 4PS is a smart PDU (Power Distribution Unit) with four power outlets (4x IEC-320 C13). Each output can be switched on/off individually. The manufacturer also supplies accessories for mounting the product into a 19” rack as a 1U device, as well as in a horizontal or vertical. iPower ACU is a 3rd generation of intelligent PDUs design to aid Data Centre power management. The range consists of four models offering various levels of power monitoring and power switching features, and can be manufactured as single, dual or 3-Phase with a choice of socket types and mains lead. Schneikel's Smart Basic PDUs represent a simple and reliable solution where fail-safe power distribution is required for racks and all other data center applications. It provides secure, centralized, intelligent, and remote power management of data center IT equipment to minimize the operating cost.
