Photovoltaic cable tray clamp price

Overview

304 Stainless Steel Square Cable Tray Clamp 10 Pack Photovoltaic. High-Value 10-Pack: This listing includes ten identical, professional-grade cable tray.

Key Takeaways

Photovoltaic cable tray clamps range from approximately $10 to $30 per pack, depending on material, size, and quantity. Price Overview304 Stainless Steel Clamps (Amazon): A pack of 4 small clamps or 3 larger clamps costs around $10–$15, made from durable 304 stainless steel, suitable for square cable trays and PV conduits. Plastic Solar Cable Clamps (Amazon Germany): A pack of 30 plastic clamps designed for 6–6.

5 mm cables is priced around $12–$18, offering anti-aging and stable structure for long-term use. Large 10-Pack Stainless Steel Clamps (Amazon Ireland): For larger installations, a pack of 10 stainless steel clamps costs approximately $25–$30, ideal for square cable trays and PV channels.eBay Photovoltaic Clamps: Individual or small packs of stainless steel PV clamps are available for $10–$20, depending on seller and shipping options.

Factors Affecting Price

Material: Stainless steel clamps are more durable and corrosion-resistant, generally costing more than plastic clamps. Pack Size: Larger packs reduce the per-unit cost, making them more economical for large-scale solar installations. Dimensions: Clamps designed for larger cable trays or conduits may be slightly more expensive due to increased material use.

Seller and Shipping: Prices vary by platform and location, and VAT or import fees may apply depending on your region.

Recommendations

For small residential PV installations, plastic clamps in packs of 30 are cost-effective and easy to install. For industrial or outdoor solar farms, stainless steel clamps are recommended for durability and long-term corrosion resistance. Always check the dimensions to ensure compatibility with your cable trays or conduits.

By comparing pack sizes, materials, and suppliers, you can select the most suitable photovoltaic cable tray clamps for your project while optimizing cost.
