Polish telecommunications distribution box manufacturer

Overview

OPTOMER is a polish producer of a wide range of passive optical components. Over twenty five years of experience in the telecommunications market.

Key Takeaways

PEFLEX and eSielski are notable Polish manufacturers offering customizable distribution boxes for electrical and ventilation systems. Key Manufacturers1.

PEFLE

X (BOXMAKER Distribution Boxes) PEFLEX specializes in custom-made distribution boxes, also known as manifolds, primarily for ventilation systems but adaptable for various applications.

Their BOXMAKE

R program allows clients to design boxes with precise dimensions, spigot arrangements, and connection locations. The boxes are made from thick stainless steel, ensuring high durability and tightness, and feature the CLICK system for fast duct assembly. Orders placed and paid by noon can be shipped within 24 hours, making them suitable for urgent projects.

2. eSielski eSielski manufactures low-voltage distribution boxes for mobile and stationary applications. Their products include metal cases, workshop distribution boards, and boxes for construction sites. They offer customized solutions with integrated protections such as thermal overload, phase asymmetry, and residual current devices.

The company provides technical support and design services to tailor boxes to specific electrical requirements. 3. Assel Poland Assel provides box build assembly services for electro-mechanical products, including distribution boxes.

They offer end-to-end solutions from design engineering, material sourcing, PCB assembly, and testing to final packaging. Assel emphasizes customization, quality control, and compliance with AQL standards, making them suitable for complex or high-spec telecommunications and electrical distribution projects. 4.

ART-BOX While primarily focused on packaging, ART-BOX manufactures rigid boxes and custom enclosures, which can be adapted for certain distribution or protective applications. They offer full in-house production capabilities, including laminating and assembly, which may be relevant for specialized telecommunications enclosures.

Considerations for Selection

Customization: PEFLEX and eSielski provide tailored solutions for specific installation requirements. Material and Durability: Stainless steel and robust metal cases ensure long-term reliability. Lead Time: PEFLEX offers rapid production and shipping within 24 hours for standard orders.

Technical Support: Companies like eSielski and Assel provide design assistance and engineering support. These manufacturers represent reliable options for sourcing Polish-made distribution boxes suitable for telecommunications, electrical, and ventilation systems, with flexibility for custom designs and rapid delivery.
