Key Takeaways

Steel cable trays in Ukraine typically range from around 500 to 2,500 UAH per meter, depending on type, material, and size.

Price Overview

Perforated Steel Cable Trays: These are widely used for general industrial and commercial applications. Prices for standard sizes like 50x50 mm can start at approximately 500–800 UAH per meter, depending on thickness and manufacturer (Allelectro.com.ua). Wire Mesh or Stainless Steel Trays: Wire trays made of stainless steel (AISI 304) with dimensions 50x50 mm and 2.

5 m length are more expensive due to corrosion resistance and lightweight design, typically costing 1,500–2,500 UAH per tray (CMS.ua).

Ladder-

Type Steel Trays: Ladder trays, often used for heavy-duty industrial installations, are priced higher than perforated trays, with costs varying based on width, height, and load capacity. Prices are generally 1,000–2,000 UAH per meter (Rinmetal.com.ua).

Factors Affecting Cost

Material: Galvanized steel is cheaper than stainless steel, while aluminum trays are usually more expensive. Dimensions: Wider or deeper trays increase material usage and cost. Load Capacity: Trays designed for heavy cables or industrial use are priced higher.

Supplier and Delivery: Local suppliers may offer discounts for bulk orders, and delivery costs can vary depending on location in Ukraine.

Additional Notes

Export and trade data indicate that steel cable trays are actively produced and supplied within Ukraine, with multiple manufacturers like DKS, LLC Uskut, and Avers-Techno providing perforated and metallic trays in bulk (SEAir.co.in). For precise pricing, it is recommended to contact suppliers directly, as prices fluctuate based on market demand, steel prices, and order volume. In summary, for standard steel cable trays in Ukraine, expect prices from 500 UAH per meter for basic perforated trays up to 2,500 UAH per meter for stainless steel or specialized wire trays, with ladder-type trays falling in between depending on specifications.
