Price of Dutch Zinc Aluminum Magnesium Cable Trays

Overview

Zinc aluminum mesh cable tray 60x300mm Quick coupling plate for wire tray 60mm Zinc-Magnesium €1,75 (incl. VAT) Add to cart Quick view Price of Dutch Zinc.

Key Takeaways

Dutch Zinc-Aluminum-Magnesium cable trays typically range from €50 to €200 per meter depending on type, size, and customization.

Overview

Dutch Zinc-Aluminum-Magnesium (Zn-Al-Mg) cable trays are corrosion-resistant systems designed for industrial, commercial, and solar applications. They are manufactured from a steel substrate coated with a zinc-aluminum-magnesium alloy, providing enhanced durability in corrosive environments (C1-C5) and extending service life compared to standard galvanized steel trays. Standard configurations include ladder-type, trough-type, and perforated tray-type, with custom sizes available for specific projects.

Pricing Factors

The cost of these cable trays depends on several factors: Material and Coating: Zn-Al-Mg alloy coating increases corrosion resistance, which slightly raises the price compared to standard galvanized steel. Tray Type: Ladder trays, perforated trays, and solid trays have different manufacturing costs. Ladder-type trays are generally more expensive due to additional rungs and structural support.

Dimensions: Widths up to 900mm and lengths of 3 meters are standard, with larger or custom sizes increasing the price. Customization: Powder coating, bespoke designs, and lids for cable trays add to the overall cost. Installation and Labor Savings: Modular designs and compatibility with standard cable management systems can reduce installation costs, which is often factored into the total price.

Typical Price Range

Standard Ladder or Perforated Trays: €50–€120 per meterHeavy-Duty or Custom Sizes: €120–€200 per meterSpecial Coatings or Powder-Coated Trays: Prices may exceed €200 per meter depending on specifications ApplicationsThese cable trays are suitable for: Industrial Facilities: Power plants, manufacturing plants, and chemical plantsCommercial Buildings: Data centers, office complexes, and solar installationsHarsh Environments: Coastal or high-humidity areas where corrosion resistance is critical ConclusionDutch Zn-Al-Mg cable trays offer durable, corrosion-resistant solutions for a wide range of applications. While prices vary based on type, size, and customization, the typical range is €50–€200 per meter, with heavy-duty or specialized trays at the higher end.

For precise pricing, it is recommended to request a quote from suppliers considering your project specifications.
