Price of Fiber Optic Splice Accessories

Overview

Fiber Optic Splicing Equipment Fiber Instrument Sales has a wide variety of fiber optic splicing equipment such as fusion splicers from AFL, Sumitomo, FITE.

Key Takeaways

Fiber optic splicing accessories range from $1 for small consumables to several thousand dollars for fusion splicers, depending on type, brand, and whether new or pre-owned.

Fusion Splicers

Fusion splicers, the core equipment for joining optical fibers, typically cost $1,500 to $10,000 for new models, depending on brand and features. Certified pre-owned or refurbished splicers are available at a fraction of the cost, often between $1,000 and $5,000, and rental options provide flexibility for short-term projects. Popular brands include Sumitomo, Fujikura, and TEKCN.

Cleavers and StrippersHigh-precision fiber cleavers, essential for clean fiber cuts, range from $200 to $1,000 depending on quality and brand. Strippers and other hand tools are generally $10–$50 per unit.

Splice Protection Sleeves and Consumables

Splice protection sleeves, used to protect the fused fiber joint, typically cost $1–$5 per sleeve. Other consumables like replacement electrodes, cleaning kits, and carry cases vary from $5 to $100 depending on the item.

Enclosures and Splice Trays

Fiber optic enclosures, splice trays, and wall or rack-mounted accessories are priced based on size and capacity. Small splice trays may cost $20–$50, while larger outside plant enclosures can range from $100 to $500 or more.

Factors Affecting Cost

Project size and fiber count: Larger projects may reduce per-unit costs due to volume pricing. New vs. pre-owned: Certified pre-owned equipment offers significant savings. Location and shipping: Costs may vary depending on delivery location and import fees.

Brand and precision: High-end brands and precision tools command higher prices but ensure lower splice loss and long-term reliability. For a complete selection of fiber optic splicing accessories, suppliers like FiberOptics.com, Fiber Instrument Sales, and Splicermarket.com offer a wide range of products including fusion splicers, cleavers, splice sleeves, enclosures, and testing equipment.
