Price of Super Optical Cable

Overview

Farnell® Germany offers fast quotes, same day dispatch, fast delivery, wide inventory, datasheets & technical support.

Key Takeaways

Super optical cable prices typically range from $0. 09 to $6 per foot, depending on type, fiber count, and installation requirements.

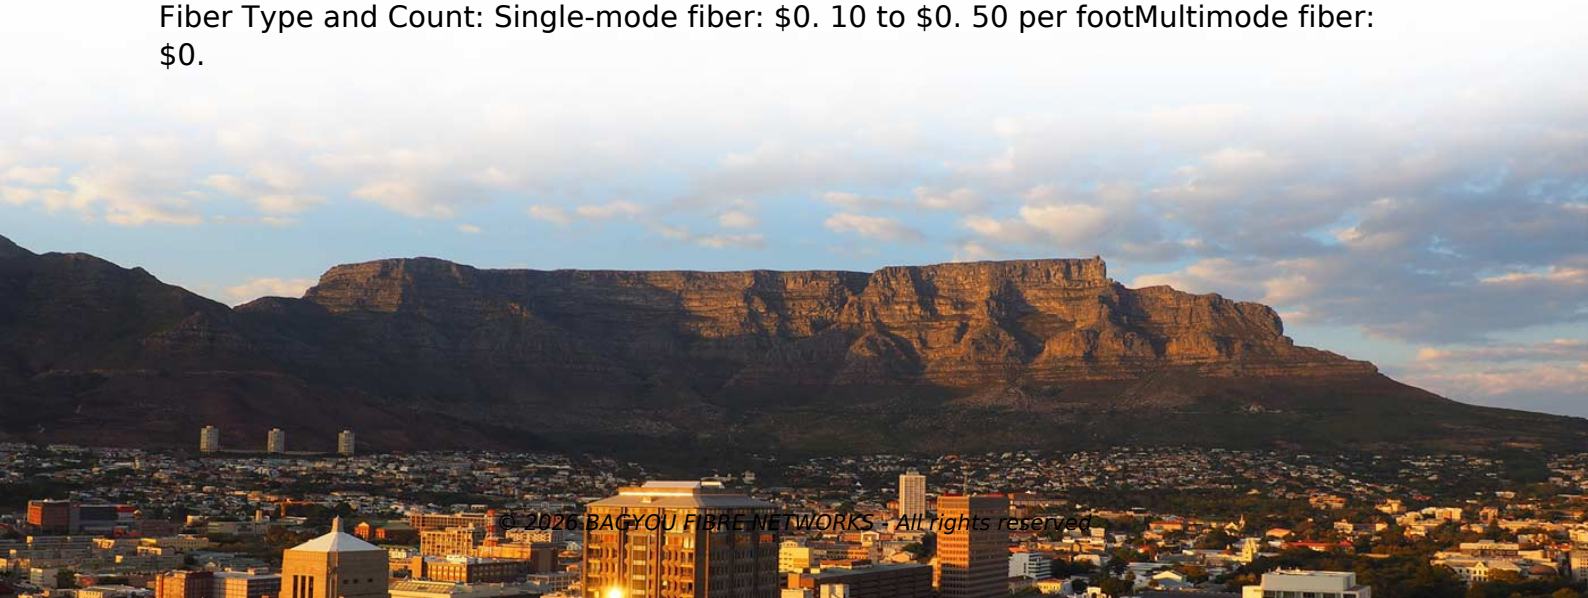

Pricing Overview

The cost of super optical cables varies widely based on cable type, fiber count, and application. For raw materials: Wholesale bulk purchases: $0. 09 to $1.

52 per footRetail prices: $1 to $6 per foot, depending on fiber strand count and cable construction For example, a simple 1-core FTTH drop cable costs around $0. 13 per foot, while a 288-count optical fiber backbone cable can reach $6 per foot or more. Pre-terminated assemblies and patch cables are more expensive due to factory termination and connector types.

Factors Affecting Price

Fiber Type and Count: Single-mode fiber: $0. 10 to $0. 50 per footMultimode fiber: $0.

30 to $1. 00 per footHigher strand counts increase costs proportionally Cable Construction: Indoor riser-rated cables are cheaper than plenum-rated cablesArmored or direct-burial cables range from $0. 50 to $5 per foot Core Material: Glass fiber cores are more expensive but provide higher speed and longer distancePlastic optical fibers are cheaper but suitable for shorter runs Installation Method: Underground or complex installations increase overall project costsAerial or indoor runs are less expensive Types of Super Optical CableSuper optical cables include fiber optic, coaxial, and twisted pair cables.

Fiber optic cables are preferred for high-speed, long-distance data transmission, while coaxial and twisted pair cables are used for shorter-range or cost-sensitive applications. The choice of cable type directly impacts both performance and price.

Purchasing Options

Online retailers like Amazon offer bulk fiber optic cables, e.g., 1000-foot spools of single-mode duplex fiber, which can be customized for specific projects Wholesale suppliers provide bulk pricing for large-scale installations, often at the lower end of the per-foot range In summary, expect to pay between $0. 09 and $6 per foot for super optical cables, with the final cost influenced by fiber type, strand count, construction, and installation complexity. For large projects, bulk purchases and careful selection of cable type can significantly reduce costs.
