Key Takeaways

Cable trays in Guinea typically range from $15 to $50 per meter depending on material, type, and supplier, with galvanized steel being the most common choice.

Overview of Cable Trays in Guinea

Cable trays are essential for organizing and supporting electrical cables in industrial, commercial, and construction projects. In Guinea, suppliers offer a variety of materials including galvanized steel, stainless steel, and fiberglass, with options for perforated, ladder, and solid-bottom trays to suit different applications. The choice of material and design affects both durability and price.

Price Range

Galvanized Steel Cable Trays: Approximately $15–$35 per meter, widely used for general electrical installations due to their strength and corrosion resistance. Stainless Steel Cable Trays: Higher-end option, typically $30–$50 per meter, suitable for environments requiring superior corrosion resistance.

Fiberglass or Non-

Metallic Trays: Prices vary, generally $25–$45 per meter, offering lightweight and non-conductive properties. Additional costs may include supports, brackets, and installation accessories, which can add 10–20% to the total project cost depending on complexity and mounting requirements.

Suppliers and Services

Several reputable suppliers operate in Guinea: Jeetmull Jaichandlall (P) Ltd.: Offers galvanized cable trays in various sizes and configurations, emphasizing high-quality finishing and compliance with industry standards. Brilltech Engineers Pvt. Ltd.: Provides a wide range of cable trays, including perforated and ladder types, with installation support and system design assistance.

Micro Sheet Crafts: Supplies modular cable trays with customized specifications, using high-grade steel and advanced fabrication technology. These suppliers often provide on-time delivery, after-sales support, and customization to meet project-specific requirements.

Factors Affecting Price

Material Type: Galvanized steel is cheaper than stainless steel or fiberglass. Tray Design: Ladder and perforated trays may cost more than solid-bottom trays due to manufacturing complexity. Size and Load Capacity: Wider trays or those designed for heavy-duty applications are more expensive.

Supplier and Brand: Established suppliers with quality certifications may charge a premium.

Conclusion

For projects in Guinea, expect to budget $15–$50 per meter for cable trays, with additional costs for supports and installation. Selecting the right material and supplier is crucial for durability, safety, and compliance with local standards. Contacting suppliers directly for quotes based on your project specifications is recommended to get the most accurate pricing.
