# Price of large cable trays in Jordan

## Overview

Davos for Electrical Systems and Supplies provides specialized Busbar system, Rack Cabinet solutions, Cable Tray and Support Systems to serve the critical Data.

## Key Takeaways

Cable trays in Jordan typically range from JOD 20 to JOD 100 per meter depending on type, material, and supplier, with project installation costs varying significantly.

### Types and Pricing

Wire Mesh Cable Trays Wire mesh trays are popular for their flexibility and ventilation. Prices vary based on size, finish, and supplier, but generally start around JOD 20–50 per meter for standard sizes in Jordan. Suppliers like Jeetmull Jaichandlall (P) Ltd. offer customized options for industrial and commercial projects.

Solid or Perforated Metal Trays Solid or perforated sheet metal trays, such as the P31 range from Legrand Jordan, are more robust and suitable for heavy-duty installations. Prices typically range from JOD 40–100 per meter, depending on thickness, finish, and accessories like bends, junctions, and mounting brackets.

### Project-

Based Costs For large-scale installations, the total cost includes supply, installation, and cable management. For example, Tarkibat Construction Co. completed a cable tray replacement project at Arab Potash in Amman for JOD 480,000, which included full cable reinstatement and dressing. This illustrates that project costs can vary widely based on scale, complexity, and labor.

### Suppliers in Jordan

Bahra Electric: Offers a variety of cable trays for commercial and industrial use, emphasizing modularity and safety.

### Munir Al-

Ali & Sons: Provides supply and installation of cable trays along with complete electrical network solutions. Legrand Jordan: Supplies high-quality P31 cable trays with multiple configurations and accessories. Jeetmull Jaichandlall (P) Ltd.: Specializes in wire mesh cable trays with customization options.

### Considerations

Material and Load Capacity: Heavier-duty trays cost more but support larger cable bundles. Installation Complexity: Bends, junctions, and ceiling or wall mounts increase overall cost. Project Scale: Bulk orders or large projects may reduce per-meter cost but increase total expenditure.

In summary, cable tray prices in Jordan vary widely depending on type, material, and project requirements, with wire mesh trays starting around JOD 20 per meter and solid metal trays reaching up to JOD 100 per meter, while full project installations can cost hundreds of thousands of Jordanian Dinars for large industrial sites.
