Price of steel cable trays in Lebanon

Overview

Products Cable Trunkings and Accessories are offered in a comprehensive range. Mill galvanized, hot-dip galvanized, and powder coated are the finishes prod.

Key Takeaways

Steel cable tray prices in Lebanon typically range from $15 to $50 per meter, depending on material, size, and finish.

Factors Affecting Cost

Material Type: Steel cable trays can be pre-galvanized, hot-dip galvanized, stainless steel, or aluminum. Stainless steel and hot-dip galvanized trays are more expensive due to corrosion resistance and durability. Tray Design: Options include solid-bottom, ventilated, or wire mesh trays.

Wire mesh trays (like Cablofil) are lighter, easier to install, and often cost slightly more per meter due to flexibility and patented designs. Size and Load Capacity: Tray width, height, and load rating (light, medium, heavy duty) influence price. Heavy-duty trays for industrial or high-load applications are more expensive than standard trays.

Finish and Coating: Surface treatments such as hot-dip galvanization, powder coating, or stainless steel grades (304L, 316L) affect cost. Outdoor or corrosive environments require higher-grade finishes, increasing the price. Accessories and Installation: Bends, tees, supports, and suspension systems add to the total cost.

Quick-fix systems or toolless accessories can reduce labor costs but may slightly increase material cost.
