Recommended Norwegian cable tray brands

Overview

Cable trays, including ladder, perforated, and wire mesh types, are essential for the safe and efficient routing of power, control, and data cables in commercial, industrial, and utility settings.

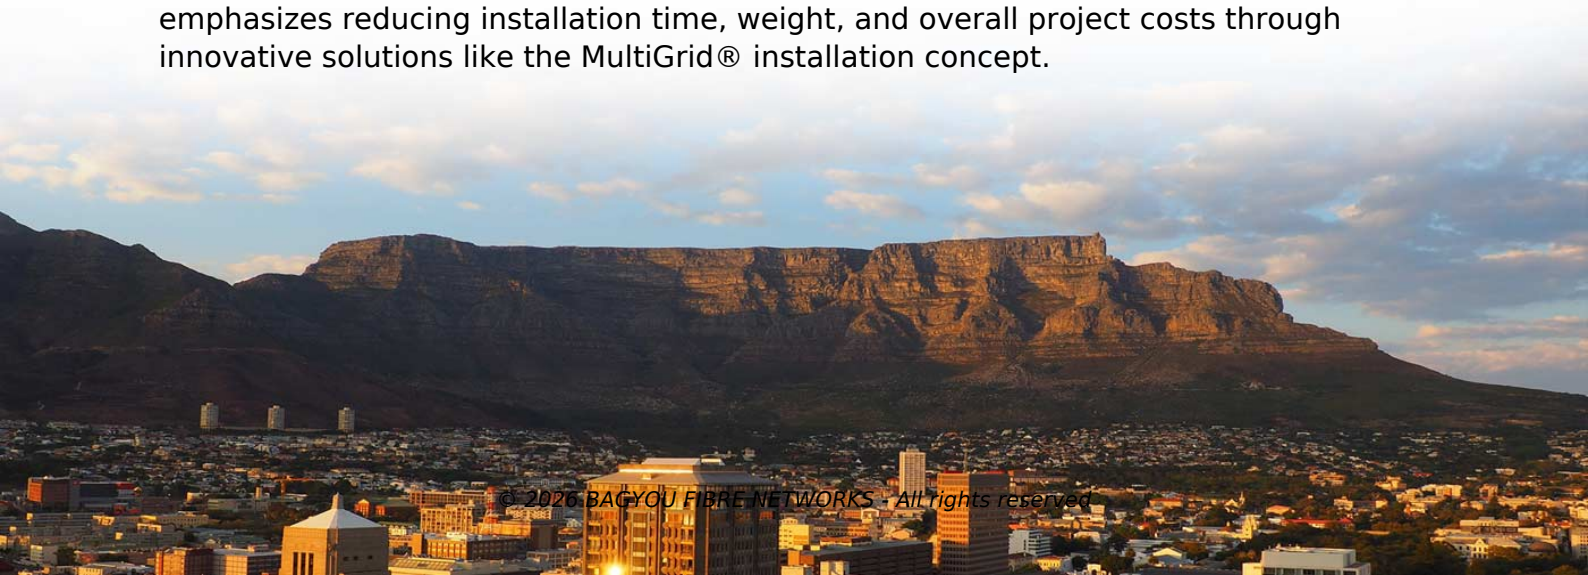

Key Takeaways

Oglaend System and Nordic Wire Tray are leading Norwegian brands for cable trays and support systems.

Oglaend System

Founded in 1977 in Sandnes, Norway, Oglaend System is a global leader in multidiscipline support systems, cable trays, and cable ladders. The company is part of the Hilti Group and operates internationally with factories in Norway, Malaysia, China, and Russia. Oglaend System serves industries such as oil & gas, shipbuilding, wind energy, infrastructure, and marine farming.

Their products include GRP support systems made from fiber-reinforced plastic, designed for corrosion resistance, safety, and installation efficiency. The company emphasizes reducing installation time, weight, and overall project costs through innovative solutions like the MultiGrid® installation concept.

Nordic Wire Tray

Another notable Norwegian brand is Nordic Wire Tray, which offers cable laying systems under the X-Tray brand.

X-

Tray products are customizable cable ladders and trays designed for flexibility, high load capacity, and safety. They comply with IEC 61537 standards and feature long bracket distances for faster installation and reduced material usage. Nordic Wire Tray focuses on premium quality, durability, and ease of installation, making it suitable for a wide range of industrial and commercial applications.

Summary

For Norwegian cable tray solutions, Oglaend System is recognized for its international reach, innovative GRP systems, and multi-industry applications, while Nordic Wire Tray is known for its premium X-Tray system with customizable and efficient installation features. Both brands provide high-quality, durable, and safe cable management solutions suitable for demanding projects in Norway and abroad.
