Reference Price for Cold Aisle Server Racks in Albania

Overview

Find top-rated data center cold aisle racks with customizable features. Get verified suppliers, competitive pricing, and fast delivery.

Key Takeaways

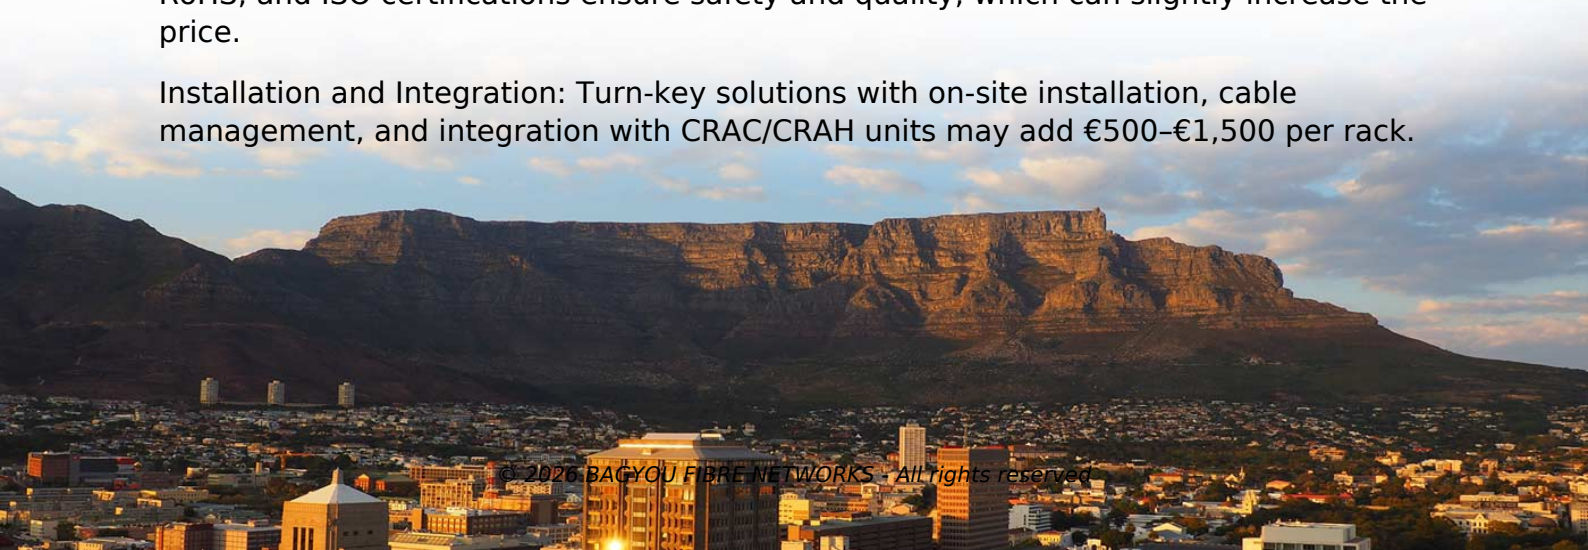

Cold aisle server racks in Albania typically range from €1,500 to €5,000 per rack, depending on size, material, and containment features.

Pricing Overview

The cost of a cold aisle server rack depends on several factors: Rack Size and Capacity: Standard heights include 42U, 45U, and 48U, with widths of 600 mm or 750 mm. Larger or deeper racks generally cost more. Material and Build Quality: SPCC cold-rolled steel is common, while aluminum or reinforced steel frames may increase the price.

Containment Features: Cold aisle containment systems, including sliding doors, roof panels, and modular components, add to the cost. Systems with clear acrylic panels or synchronized double doors are more expensive. Certifications and Compliance: CE, RoHS, and ISO certifications ensure safety and quality, which can slightly increase the price.

Installation and Integration: Turn-key solutions with on-site installation, cable management, and integration with CRAC/CRAH units may add €500–€1,500 per rack.

Estimated Price Range

Basic Cold Aisle Rack (42U, standard steel, minimal containment): €1,500–€2,500Mid-Range Rack (42–48U, reinforced steel, partial containment, sliding doors): €2,500–€3,500High-End Rack (48U, full cold aisle containment, modular, integrated cable management): €3,500–€5,000 These prices are indicative for Albania, based on European suppliers and shipping costs. Local taxes, import duties, and installation services may further affect the final cost.

Additional Considerations

Scalability: Modular systems allow future expansion without replacing the entire rack. Energy Efficiency: Cold aisle containment can improve PUE and reduce cooling costs, potentially offsetting higher upfront costs. Supplier Options: European suppliers like Enoc System, Vertiv, Eaton, and EDP Europe provide solutions compatible with Albanian installations.

For precise pricing, it is recommended to request quotes from local distributors or European suppliers who can ship to Albania, specifying rack dimensions, containment type, and installation requirements.

Data Center Cold Aisle Racks 2026

Find top-rated data center cold aisle racks with customizable features. Get verified suppliers, competitive pricing, and fast delivery. Click to explore 2026''s best solutions for optimal

Data Center Aisle Containment Systems | Profile IT Solutions

Specify complete aisle containment systems for data centers, edge facilities and high-density compute rooms. Compare configurations, build a shortlist and send one project-ready enquiry.

server racks cold aisle: Best 2026 Solutions

Find top-rated server racks cold aisle solutions with intelligent monitoring, modular design, and real-time airflow analysis. Click to explore verified suppliers and get the best deals for your data center needs

Data center racks and aisle containment | Enoc System

Our flexible server racks and aisle containment solutions for hot and cold corridors are both cost and energy efficient. We help you to create a complete, future-proof and sustainable solution.

Altimir – Data Center Solutions

© 2026 BAGYOU FIBRE NETWORKS - All rights reserved

Altimir designs, fabricates, and installs energy-efficient, custom-engineered Hot Aisle and Cold Aisle Containment Systems. Recognized for the quality of its products, the company''s products are

Cold Aisle Containment System | ABBA RACK Data Center Solutions

ABBA RACK Cold Aisle Containment (CAC) designed with the modular system and easy to assemble for your current and future application needs, from colocation to enterprise and hyperscale data

Cold Aisle Containment

Modular designed frame made of cold roll steel, with thickness ≥ 1.2mm to ensure the firmness and security. Each modular unit has proper space for cable management of installation sensor, control

INTELLINET Network Cabinets, Racks, Swing Out

Intellinet Network Solutions'' network cabinets and open frame racks present a versatile and all-encompassing solution for your network installation needs.

Aisle Containment | Vertiv Hot/Cold Aisle Containment Solutions

Adaptable to hot and cold aisle containment, the Vertiv Aisle Containment system allows you to deploy containment before or after racks are installed to simplify installation and speed deployment of new

Cold Aisle Containment

Cold Aisle Containment or CAC is a proven, relatively easy to deploy solution for effectively managing airflow within a data centre. A CAC system surrounds the

Server Racks Cooling: Hot & Cold Aisle Airflow

Optimize data center efficiency with server racks cooling solutions. Discover hot aisle and cold aisle airflow systems for better temperature control. Click to explore top-rated, customizable

Aisle Containment for Server Rooms and Data Centers

Shop aisle containment solutions at Server Racks Online. Explore hot and cold aisle containment systems, including doors, panels, and ceilings. Improve data center airflow, cooling efficiency, and

Cold Aisle Containment

Aisle containment in the data center requires that cabinets are aligned in a hot aisle/cold aisle layout. Containment panels or strips create a partition to isolate

Data Centre Cooling: Hot Aisle and Cold Aisle Design
