

Shared USB Drive KVM Switch

Overview

Discover USB KVM switches to share peripherals between 2 computers. 0, HDMI support, and easy one-button switching. USB peripherals like Logitech K120 keyboard, Logitech K400 Plus wireless keyboard, Keychron K6 keyboard, Logitech M510 mouse, Logitech MX Master 3S mouse, Razer DeathAdder Essential mouse, USB headsets, USB gaming controllers, USB printers, USB barcode scanners, or nearly any other USB 3.0 peripheral devices without constantly pull cables or set up complicated network sharing software, including IR Remote, 2pcs of USB 3.0. Share keyboards, mice, USB drives, and printers via three USB-A ports, all controlled by a single host switch. Boost productivity and keep your workspace clutter-free. Note: This KVM hub does not. Control multiple computers with one keyboard, mouse, and monitor using our recommended KVM switches, with setup guides, troubleshooting tips, and security considerations for work and home office environments.
