Standard Price of Distribution Box Switch Jumper Wires

Overview

Shop DigiKey''s large in-stock selection of Shunts, Jumpers. View inventory, pricing and order now for same day shipping!

Key Takeaways

Jumper wires in India range from ₹0. 17 to ₹10 per meter, while distribution box switches vary widely depending on capacity and features.

Jumper Wire Pricing

Jumper wires, commonly used for electrical connections and prototyping, are available in various types such as male-to-male, male-to-female, and female-to-female. Prices in India typically start as low as ₹0. 17 per meter for basic wires from suppliers like Kusum Enterprises, while higher-quality or specialized wires can cost up to ₹10 per meter depending on insulation, length, and brand.

Bulk orders often reduce the per-meter cost. Online platforms like IndiaMART and DigiKey provide a wide selection for both hobbyist and industrial applications.

Distribution Box Switch Pricing

The cost of distribution boxes and modular switches depends on capacity, number of circuits, and additional features such as surge protection or smart connectivity. Standard residential distribution boxes in India typically range from ₹500 to ₹3,000, while commercial-grade or smart modular units can cost ₹5,000 or more. Prices vary based on material quality, brand, and compliance with safety standards.

Key Considerations

Quality of wires: Copper-aluminum hybrid wires offer good conductivity at lower cost while meeting fire safety codes. Modularity: Modular distribution boxes allow easy expansion for additional circuits, EV chargers, or solar panels. Supplier selection: Contacting suppliers directly can provide bulk discounts and updated pricing.

Notable suppliers include Ferrena Enterprise, MTS Electronics, and Hemal Electronics for jumper wires. By considering these factors, you can budget effectively for both jumper wires and distribution box switches while ensuring safety and reliability.
