Swiss Cable Tray Price and Specifications Table

Overview

Ducts, Cable Trays & Trunking | Distrelec SwitzerlandDistrelec Switzerland stocks a wide range of Ducts, Cable Trays & Trunking. Next Day Delivery Availabl.

Key Takeaways

In Switzerland, cable tray prices vary widely, typically ranging from CHF 5 to CHF 50 per meter depending on material, type, and finish.

Price Overview

Cable tray costs depend on material, size, type, and coating. Common materials include: Pre-Galvanized Steel (PG): Most affordable, suitable for dry indoor areas like offices or schools.

Hot-

Dip Galvanized Steel (HDG): More expensive, ideal for outdoor or industrial environments due to superior corrosion resistance. Aluminum: Lightweight and rust-proof, moderately expensive, reduces the need for heavy hangers. Stainless Steel: Highest cost, used in hygienic or corrosive environments such as food plants or coastal areas.

PVC/Plastic: Budget-friendly, suitable for light loads and indoor use.

Typical Price Ranges

Steel trays: CHF 10–30 per meter, depending on coating and load capacity. Aluminum trays: CHF 20–50 per meter, lighter and easier to install. Wire mesh/basket trays: Lower-cost option, ideal for data centers or office cabling.

PV

C trays: Often the cheapest, around CHF 5–15 per meter.

Cost Factors

Tray Type: Ladder trays are more expensive but support heavy cables; perforated or wire mesh trays are cheaper.

Coating/

Finish: HDG and powder-coated trays increase durability and cost; pre-galvanized is cheaper but less durable outdoors. Labor and Installation: Open trays are faster to install than conduit systems, reducing labor costs significantly. Order Quantity: Bulk purchases can lower per-meter costs.

Shipping and Handling: Heavier trays like steel incur higher transport costs.

Swiss Supplier Example

Distrelec Switzerland stocks a wide range of cable trays, including PVC and metal options, with next-day delivery available. Prices for a 3-meter PVC tray (150 x 50. 2 mm) start at approximately CHF 30–40 per unit.

Cost-

Saving Tips

Choose lighter or perforated trays if load requirements are moderate. Buy in bulk to reduce unit cost. Consider pre-galvanized steel for indoor projects to save on material costs.

Plan installation during off-peak periods to reduce labor expenses. In summary, Swiss cable tray costs vary widely based on material, type, and installation requirements, with typical prices ranging from CHF 5 to CHF 50 per meter, and additional savings possible through bulk purchasing and material selection.
