UK Cable Tray Installation Prices

Overview

Cable Trays | Cable Management Trays Shop Cable Trays, Wire Trays & Cable Baskets, Steel & Stainless Steel Cable Trays. Professional Cable Management with.

Key Takeaways

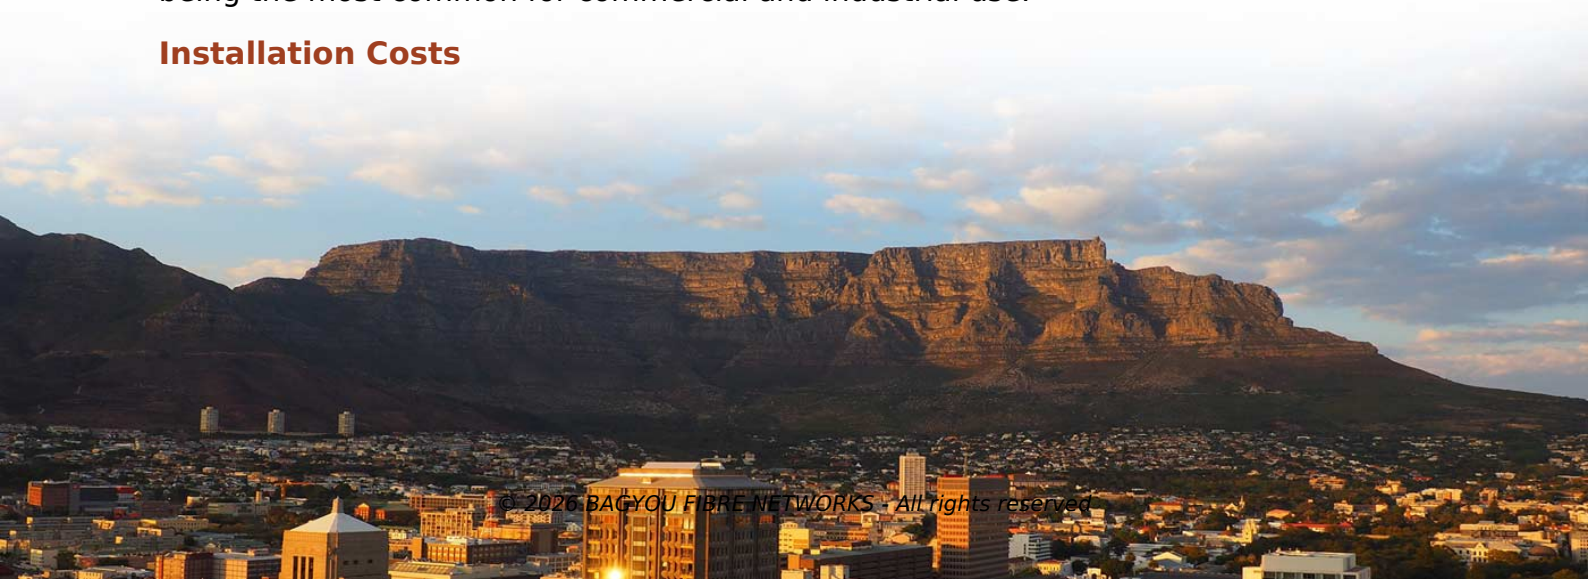

Cable tray installation in the UK typically ranges from £4 to £45 per meter, depending on material, type, and installation complexity.

Material and Tray Type Costs

Steel Cable Trays: Common and durable, priced around £4–£20 per meter. Suitable for general indoor installations with moderate environmental exposure. Aluminium Cable Trays: Lightweight and corrosion-resistant, ideal for humid or coastal areas, costing approximately £5–£25 per meter.

Fiberglass (FRP) Trays: Highly resistant to aggressive environments, priced between £8–£45 per meter, often used in chemical plants or outdoor installations. Stainless Steel Trays: Most durable and corrosion-resistant, suitable for heavy-duty industrial or pharmaceutical settings, generally at the higher end of the price range. Tray types include ladder, solid-bottom, wire mesh, basket, and single rail, with ladder trays being the most common for commercial and industrial use.

Installation Costs

Installation costs vary based on complexity, length, and accessories: Labour and mounting supports, brackets, and connectors can add significantly to the total cost. Simple straight runs are less expensive, while intricate routing with bends, tees, and crossovers increases labour costs. Medium-duty trays are often chosen for their balance of strength and cost-effectiveness, supporting moderate cable loads in commercial and industrial settings.

Accessories and Fittings

Couplers, bends, tees, and lids are sold separately and typically priced per piece, e.g., medium-duty couplers for straight runs cost around £10–£20 per pair. Standard tray lengths are usually 2. 4 meters, with prices quoted per length or per meter depending on supplier.

Summary

For budgeting purposes in the UK: Basic steel ladder tray installation: £4–£10 per meterAluminium or corrosion-resistant trays: £6–£25 per meterFiberglass or heavy-duty stainless steel trays: £10–£45 per meterAdditional fittings and labour: £5–£15 per meter depending on complexity Choosing the right material and tray type should consider load capacity, environmental conditions, and long-term durability to optimize both initial investment and maintenance costs.
