Wall-mounted wall distribution box

Overview

A wall-mount electrical box represents a compact enclosure typically affixed to vertical surfaces, housing control components, circuit breakers, terminal blocks, or PLC modules. Unlike freestanding power cabinets, wall-mounted boxes prioritize space optimization and localized. The E-abel AE Series wall-mount boxes address these requirements directly: offering superior protection, flexible installation options, and professional aesthetics that integrate seamlessly into diverse industrial and commercial settings. Whether deployed alongside production machinery or. CommScope offers a complete line of easy-to-use access terminals, copper and fiber splice closures, patch closures and accessories to speed deployment. Metallic or non-metallic enclosures are available in various NEMA ratings to fit many environmental protection requirements. Sub-panels are sold separately unless otherwise noted. Made from solid rubber, a material that offers excellent weather-, UV- and ozone-resistance, a high degree of energy absorbent damping, good resistance to acids. 60A HIGH CURRENT POWER SUPPLY BOX:The input voltage of the power box is 110V, and Maximum tolerable load current 60A. 5mm Galvanized mainframe ● Electrostatic Powder Painted.
