Where can I find fiber optic cables in Palau

Overview

Expanding digital connectivity in Palau via a submarine cable system. An AIFFP loan and grant package is enabling increased internet connectivity in Pala.

Key Takeaways

Fiber optic cables in Palau are primarily managed by the Belau Submarine Cable Corporation, with landing stations at Ngeremlengui connecting to international submarine networks.

Key Providers and Infrastructure

Belau Submarine Cable Corporation (BSCC) is the main organization responsible for fiber optic cables in Palau. Established in 2016, BSCC owns and operates the submarine fiber optic network that connects Palau to global internet systems. The corporation manages both Palau Cable 1 (PC1) and Palau Cable 2 (PC2), providing high-speed, low-latency connections to Guam, Singapore, and the mainland United States.

Cable Systems

Palau Cable 1 (PC1): Launched in 2017, PC1 connects Palau to a branching unit of the SEA-US submarine cable system. The cable lands at the Ngeremlengui Cable Landing Station, also known as the Capacity Access Point at Ngeremlengui (CAP-N), serving as the main hub for internet connectivity in Palau. Palau Cable 2 (PC2): Currently under construction, PC2 will link Palau to the Echo submarine cable network, expanding connections to Singapore and the U.

S., and increasing bandwidth and reliability.

Access and Usage

For businesses, government agencies, or service providers seeking fiber optic connectivity in Palau, BSCC is the primary point of contact. They offer wholesale broadband services and manage the landing stations where international submarine cables terminate. The infrastructure supports a wide range of applications, including e-health, e-education, e-governance, and commercial internet services.

Additional ResourcesBSCC Website: belaucable.com provides contact information, service details, and updates on ongoing projects. Interactive Maps: Global undersea cable maps can help visualize Palau's fiber optic connections and landing points. In summary, fiber optic cables in Palau are concentrated at the Ngeremlengui landing station and managed by BSCC, with international connectivity provided through PC1 and the upcoming PC2 submarine cables, making BSCC the central organization for accessing fiber optic services in the country.
