Which company in Malaysia makes the best aluminum-galvanized cable trays

Overview

Cable Tray | SAN ENGINEERINGAs a cable tray supplier in Malaysia, we always prioritize customer satisfaction and strive to establish long-term partnerships.

Key Takeaways

SAN Engineering and Array Metal Industries are among the top companies in Malaysia producing high-quality aluminum-galvanized cable trays.

SA

N Engineering and Electrical SupportSAN Engineering is recognized as a leading cable tray manufacturer in Malaysia, offering hot-dip galvanized (HDG) and aluminum alloy cable trays that meet both local and international standards. Their trays are corrosion-resistant, designed for efficient cable routing, and suitable for industrial, commercial, and infrastructure projects.

SA

N provides a wide range of sizes, configurations, and accessories, ensuring flexibility and customization for specific project requirements. Their products are engineered for durability and long-term performance in Malaysia's humid climate.

Array Metal Industries

Array Metal Industries specializes in durable and lightweight cable trays, including aluminum and hot-dip galvanized options. Their products conform to IEC and NEMA standards and are suitable for industrial, commercial, and telecommunications applications. Array Metal offers a variety of tray types, from light-duty non-flanged trays to heavy-duty flanged trays, providing corrosion resistance and ease of installation.

They are known for high-quality fabrication and reliable performance in demanding environments. Other Notable ManufacturersEAE Group: Offers ladder, perforated, and wire mesh trays with corrosion-resistant materials, focusing on easy installation and robust support systems for construction, commercial, and energy sectors. Maple Precision: Provides heavy-duty galvanized and stainless steel trays suitable for oil and gas, industrial, and infrastructure projects, emphasizing durability and resistance to Malaysia's humid climate.

Sun Energy System (UMI Cable Support Solution): Produces electro-galvanized, pre-galvanized, and hot-dip galvanized steel trays with epoxy coatings, suitable for heavy-duty cable management and customizable to project needs.

Recommendation

For aluminum-galvanized cable trays, SAN Engineering and Array Metal Industries are highly recommended due to their proven quality, compliance with international standards, and extensive product range. Both companies provide corrosion-resistant solutions suitable for Malaysia's climate and offer customization options to meet specific project requirements.
