Which company makes the best fireproof cable trays in Mozambique

Overview

Brilltech Engineers Pvt. Ltd is one of the trusted Cable Tray Manufacturers in Mozambique and brings you the products as per the need of your residential, commercial or industrial sectors.

Key Takeaways

For fireproof cable tray solutions in Mozambique, consider Cableshield from Durocast or FLAMMOTECT-A and DG-CR 0. 7 from Flamro, combined with high-quality galvanized, stainless steel, or fiberglass trays from Brilltech Engineers.

Fire-

Resistant Cable Tray Coatings

Cableshield (Durocast): Specifically designed to protect cable trays and power lines, ensuring continued electrical supply during fire events. It is suitable for industrial facilities, power stations, and construction projects in Mozambique, providing compliance with SABS 0177 standards and durability in tropical climates. FLAMMOTECT-A and DG-CR 0.

7 (Flamro): These fire protection coatings and tapes form a robust shield around cables, preventing flame propagation and maintaining functionality during fire incidents. They are resistant to UV, moisture, salt water, oil, and chemicals, making them ideal for both indoor and outdoor installations.

Recommended Cable Tray Materials

Galvanized Steel Trays: Hot-dip galvanized trays offer strong structural support and corrosion resistance, suitable for Mozambique's humid coastal and inland regions. Stainless Steel Trays: Provide superior durability and fire resistance, ideal for high-risk industrial environments. Fiberglass Trays: Lightweight, non-conductive, and resistant to fire and chemicals, suitable for sensitive installations or areas with high moisture.

Ladder and Perforated Trays: Promote airflow to prevent overheating and allow easy cable management, while supporting fireproof coatings.

Supplier Recommendations in Mozambique

Brilltech Engineers Pvt. Ltd.: Offers a wide range of cable trays in galvanized steel, stainless steel, and fiberglass. They provide installation support, system design assistance, and ensure compliance with international safety standards.

Durocast (Pty) Ltd: Supplies Cableshield and other fireproof coatings suitable for Mozambique's industrial sectors, including energy, mining, and construction. Flamro: Provides FLAMMOTECT-A and DG-CR 0. 7 fire protection solutions for cable trays, ensuring reliable performance in high-risk environments.

Practical Considerations

Ensure coating compatibility with the tray material to maximize fire resistance. Select trays with adequate load capacity and ventilation to prevent overheating. Verify that suppliers provide installation guidance and compliance documentation for local and international fire safety standards.

Consider environmental factors such as humidity, coastal salt exposure, and industrial chemicals when choosing materials and coatings. By combining high-quality trays from Brilltech with fireproof coatings from Durocast or Flamro, you can achieve a robust, fire-resistant cable management system suitable for Mozambique's industrial and commercial applications.
